

Silent Weapons for a 'Quiet War'

Hearing is believing – are you ready to listen?

We kindly ask you to study this document and really listen to the deeper meaning and many things become obvious. This document reveals things many people are not aware of because the sound is silent and therefore difficult to grasp.

On page 2 you find a brainwave model and on page 3 and onwards you find part of the official document "Silent Weapons for a Quiet War" translated into a possible meaning ascending to a higher perspective of understanding.

Please watch the two interviews with the Swedish professor Olle Johansson and the German doctor Doepp with this document in remembrance.

Find the two interviews directly on the Youtube channel by <u>clicking here >></u> or by visiting the website of **THE HUMAN PROJECT** here >>

	Hz	"Thi	ink of Energy, Frequency and Vibration"
4 600		Brainwav	e Activity Frequency Description
1.600 — 217 —	Hz = oscillation		WLAN//WI-FI/wireless Internet/network and microwave ovens transmit at the ultra high frequency 2,45 GHz which disturbs the brain's own clock frequency. WLAN pulsation varies. The frequencies of the microwave oven change the molecules and contaminate the inner and outer environment. Increasing infertility and cell mutations are the consequences. Bluetooth technology, e.g. the wireless headset transmits with a pulsation of 1600 Hz in the frequency band 2,45 GHz (= 2450 MHz) Mobile phones = 217 electroshocks per second into the nervous system = the wireless society short-circuits us and we suffer from disconneXion syndrome. 3G mobile phones transmit by significantly more powerful intensity and the pulsation varies.
100 —	per second	"Ultra" Beta	This unnatural intruder causes electrostress which "might" lead to brain stress due to the rapid pulsating electroshocks per second. We become electric and are being disconnected from the Now. The EU REFLEX study from 2003 with 12 research teams from 7 nations proved that our DNA is damaged and cell mutations occur. The results confirm the Freiburg Appeal from 2002 with more than 1.300 worried doctors, the Bamberger Appeal from 2004, and the Bamberger doctor's letter from 2006. Cordless DECT phones = 100 electroshocks per second into the nervous system Cordless DECT technology in private homes or in companies transmit at a frequency pulsating at 100 Hz - non-stop 24/7/365. When connected to the mains and switched on
		"Hyper" Beta	it transmits, also when it is on stand by. The intensity of cordless phones connected to traditional wired phone systems are much higher than the intensity of cell phones. The base unit equals a mobile phone antenna - just this one is often placed on bed tables or close to where people live, eat, and sleep. It disturbs our brain's centre for sleep, life energy, and recovery in the Alpha state - we burn out. The base of the brain vibrates at 100 Hz - but not pulsated. That is our centre for creativity adn important for spiritual development - getting to know one self. Disturbances create a chain reaction throughout the entire endocrine system and there- by cause hormonal disturbances - infertility? The electric current in the mains oscillate at 50/60 Hz
50 —		"High" Beta	Even the AC (alternating current) in television sets, computers and the switches in ordinary homes influence our cells in an unnatural way. The term electrostress has been known as a medical disease in several countries since at least 1969. We are being disconnected from the wisdom of the Now by so-called knowledge Stress, fear, anxiety, depression, and burn out constantly increase when we are bombarded with knowledge and information through all channels. We are being held in a state of "High" Beta. We become more aggressive, impatient, and short-minded. We become imprisoned in our mind - the MATRIX left brain mentality = limitation and resistance.
33 —		At	33 Hz and above nervousness, panic, and anxiety starts
		Beta	Consciousness constantly alert, increase of stress, "fight or flight mechanism" Thinking and concentration. Alertness, analytical problem solving, tense, stress, agitation, discord, and mental unbalance. As the frequency increases we disconnect more and more from what is in the Now. The joy of Life decreases. Our joy centre in the brain vibrates at 17,5 Hz. TETRA mobile phones transmit with a pulsating frequency of 17,65 Hz which seriously disturbs the Calcium-ion flow in and out of the cells of the brain. Police and rescue services all over Europe are destined to use TETRA systems.
13 — 7 —		Alpha & omega	Responsibility and action = always in the Now = Flow. Accept is the first step Living in the Now is the key to understanding and new consciousness. A state of calmness. Light awareness and alertness. Increased learning ability and sensitiveness. A state of Unity between body and Spirit. It is a relaxed, harmonious, energized awaken state like a light meditation. We are aware and present in the Now in Alpha - den real world. The Limbic Centre in the brain vibrates with 12,5 Hz - it is the centre for sleep. Life energy, healing, and recovery. The limbic centre is closely related to our feelings. The Pineal Gland is the superior gland in the brain. It vibrates at 10 Hz being the frequency for our nerve and time centre. The Pineal Gland produces the transmitter Melatonin which controls and regulates the other hormone producing glands and the
3 —		Theta	immune system. Melatonin is particularly being produced at night where we are asleep. Darkness and silence are both very important factors. Melatonin has a protecting effect against cancer. The Pineal Gland is very sensitive towards electromagnetic influences. Both light and sounds are electromagnetic signals at different frequencies. Microwaves affect all cells and especially the Pineal Gland. Imbalance in the Pineal Gland causes increased mental activity which "might" lead to burn out syndrome. Meditative state. Deep relaxation. Increased creativity and vivid imagination. Access to what is normally unconscious potential. Connected-ness in general is acknowledged in a wider context. Being able to connect-the-dots of the "big picture".
3 —		Delta	Regeneration and harmonious balance. The frequency band 3-12,5 Hz is the vitality "field". We "recharge", recover, and maintain homeostasis - the dynamic balance that keeps us alive. Our immune system strengthen, and our sleep is invigorating. In this field we get energy, Life force, and the power needed for a modern Life style. Very deep relaxation. Deep sleep. Trance. Deep hypnosis. ©2007 Julius www.bevolution.dk (Danish web)

The Human Project calls on full attention NOW!

The document you are being presented with below is perverse in the sense that it describes a reality that some "human beings" off track have manipulated humanity with for mange decades.

The Human Project has sensed this strongly since 1991 where many relations between people started to be very peculiar as it some out side force were directing or controlling them. We have observed how people have lost their energy and their power to stand up and decide for them selves and more and more have become "sheep" or good consumers just consuming without any purpose in Life.

This document and the "translation" of The Human Project is a big mouthful but it is very easy to comprehend when you just take one step at a time and start to reflect about what it really says. All fits together in a way that is no coincidende – and we all know that there exist no coincidence – everything is in perfect order.

Our remarks, comments – the so-called "translation" starts with a clear mark of "The Human Project" and ends with "!!!" so that there is no doubt about what is.

The document "Silent Weapons for a Quiet War" was found by "co-incidence" in 1986 or even before, and it goes back to 1954 which also happens to be the year where the "nice think-tank" Bilderberg Group was founded – this world just happens to be full of "coincidences" all the time :-)

The "funny" thing about the document in depth and the part about DIVERSION which we are going to translate below is that it describes exactly how humanity and energy on all levels have been manipulated for decades. It does take a Master's degree in something to add 2+2=4 and so it is no matter what the confusion of thought might lead it to. There are no arguements against the truth.

What you are aware of, you become conscious about!

The Human Project is here bringing Light to what is actually blocking the energy of humanity and why many human beings are getting more and more stressed and suffer from all sorts of psychological and emotional challenges these days.

Please be aware and become conscious about the content of this document...

From the original document:

DIVERSION, THE PRIMARY STRATEGY

Experience has proven that the simplest method of securing a silent weapon and gaining control of the public is to keep the public undisciplined and ignorant of basic systems principles on the one hand, while keeping them confused, disorganized, and distracted with matters of no real importance on the other hand.

This is achieved by:

- (1) Disengaging their minds, sabotaging their mental activities, by providing a low quality program of public education in mathematics, logic, systems design, and economics, and by discouraging technical creativity.
- (2) Engaging their emotions, increasing their self-indulgence and their indulgence in emotional and physical activities, by:
 - (a) unrelenting emotional affrontations and attacks (mental and emotional rape) by way of a constant barrage of sex, violence, and wars in the media especially the T.V. and the newspapers.
 - (b) giving them what they desire in excess "junk food for thought" and depriving them of what they really need.
- (3) Rewriting history and law and subjecting the public to the deviant creation, thus being able to shift their thinking from personal needs to highly fabricated outside priorities.

These preclude their interest in and discovery of the silent weapons of social automation technology.

The general rule is that there is profit in confusion; the more confusion, the more profit. Therefore, the best approach is to create problems and then offer the solutions.

<u>The Human Project:</u> People have never before been so confused, disorganized and distracted as today. The so-called societies of knowledge have misled people into the world of ignorance. Very few seem to be knowing what is really going on.

Education works as indoctrination. The majority today suffer from disconnexion syndrome and blockages in the energy system of the body.

We are being bombarded with terror, war, sex and porn on all channels. The media is caught in a low energy state and therefore makes low level news and messages that keep people the low energy state which equals fear, resistance and all sorts of feelings founded in a low quality mind.

People are being misled and misinformed with information – today one thing and tomorrow the opposite which rapes both the mind and feelings. People get

caught in the intellect (the mental mind), the ego and the painbody which is being nourished by all the hypnotic and fear generating information from the media.

Journalists and politicians are not evil by nature they simply just do not know what they are actually doing, since they will have to face and meet their own actions and lies very soon – they will learn when they are ready to step up. Forgive them.

Re-writing history in the best Orwell "1984" style is obvious to anyone bothering looking at reality. Look what seems to be the important issues today and "funny" enough that almost all people focus about and talk about – what about the real issues and meaning of Life, e.g. Self-realization? No one really has time for that any more. The history is being re-written exactly as in the novel "1984".

What are weapons of social automation technology? What do you think?

Well, in the end days back in Atlantis a control box was installed on people to suppress them in a special mentality where they could be manipulated and easily driven around as sheep. What is the control box of these end times we are experiencing right now? Yes, it is the mobile phones and actually the complete wireless society which is manipulating and suppressing the higher connexion to Spirit and intuition – what we really are. When we are being disconnected our Spirit and Soul we cannot know ourselves anymore since we are very much cut off from the aim of Life – Self-realization. In Atlantis they also put silicon chips in people at the end – are we experiencing the same situation right now where they are trying to marketing and create a lot of fear and "nice explainations" why it is so nice to have microchips in meat, animals, clothes and everything?

Profit, profit, profit...money makes the world go round and money is the root of all evil – isn't it time to make the world spin the other way around where money is not a value and goal but just a means to create a better and happier world with abundance for all? Just a question.

Order out of chaos seem to describe the creation of enormous confusion on all levels and then deliver solutions to all the confusion. We see this on all levels of society and especially where governments are involved – things are constantly changing and enormous amounts of money are being diverted to space projects and all sorts of perverted ideas of the so-called responsible. In Denmark when entering the common market in 1973 the local authorities were split up into even smaller units to secure democracy, etc. In 2007 they all went back to even bigger units than ever before with no democracy at all – every time consuming a huge amount of money and creating enormous confusion on all levels and no one really knows what is going on since then enormous sums of money and decisions can be taking without anyone understanding the real "common purpose" of it and what the consequences are.

Of course, now the EU is suddenly the solution to everything – but what about the resistance since the very beginning back in Rome 1957? The EU is the long-term agenda of the Bilderberg Group and it is just a step to an ever more sinister union. The solution can be good enough but there have to be real human beings running the "show" since ethics, morality and conscience must be a high level!!!

DIVERSION SUMMARY

MEDIA: Keep the adult public attention diverted away from the real social issues, and captivated by matters of no real importance.

SCHOOLS: Keep the young public ignorant of real mathematics, real economics, real law, and real history.

ENTERTAINMENT: Keep the public entertainment below a sixth grade level.

WORK: Keep the public busy, busy, with no time to think; back on the farm with the other animals.

The Human Project: It is all very clear or?

Media: How many of the "impulses" from the media can you actually for anything positive in your Life? Are the impulses contributing to your further ascension and personal development or enriching your Life in any way? The attention is constantly being diverted away from the real issues locally to things far away which you have no chance of really knowing anything about and further more do anything about and this keeps you in a state of powerlessness.

Schools: How come children and young people seem to become more and more stupid day by day though they spend more time in schools – the so-called education system? Perhaps indoctrination is a better word since children are being conditioned to what they must think – not HOW to think right and what thinking actually means and includes. We "teach" (indoctrinate) our children rather than making them understand the basics of life, and what fear is and where it comes from and how to deal with crisis, etc. Children and youngsters have especially during the 1990ies become extremely disconnected from life and today mobile phones, SMS, chatting, dating, being hooked to entertainment stuff on all channels seem to be the height of creativity for the majority.

Entertainment: In Danish the word entertainment means "suppression" which exactly describes "the stupid Danes" as the Germans have called the Danes, but it really describes it all in one word. Junk food for thought is exactly what is going on big time and people just seem love these "reality shows" where they can watch the so-called Life and live their lives through this rather than exploring and experiencing it themselves. TV is probably the best hypnotist of the world today besides of course the whole mobile telephone communcation system and other wireless technologies and broadcasting systems (including HAARP) designed to manipulate and control the frequencies of our brains so that we do not become too clever or wake up too much since then we see through all the illusions. TV makes our brain waves slow down and make us more vulnerable to be manipulated and actually induced directly into the subconscious without ever knowing what happened – it is difficult to describe but we see the result in the street and in the world – how come the majority is alike when they were supposed to be unique and individual expressions? Because they more or less have been primed by the same "reality

shows" on the hypnotizing or "stupid box". Suppression and disconnexion big time.

Work: Sorry, I have not got time... No, I am busy... It is really interesting to see how many people are reacting. Even when they are presented with hard core evidence and almost people are dropping down around them due to content of what they are being told, they still cannot see or or have time to think, since there are som many things in the world. Exactly – mainly ignorant people repeating exactly the same stupid comments which they have been programmed to from the television and media. This is the core of the case. People are for the majority really busy doing nothing since it mostly adds up in entertainment whether they like to hear the word or not. This planet does not take much to transform into the most beautiful Paradise ever experienced but only when peoply become what they really are and re-connect to their Path and not the perverse track of the manipulation and diversion strategy!!!

The document says of the 'quiet war':

It shoots situations, instead of bullets; propelled by data processing, instead of grains of gunpowder; from a computer, instead of a gun; operated by a computer programmer, instead of a marksman; under the orders of a banking magnate, instead of a military general. It makes no obvious noises, causes no obvious physical injuries, and does not obviously interfere with anyone's daily social life.

The Human Project: Computers and numbers on a screen are ok when they are benefitting or making Life easier. But when used for big time manipulation of energy and diverting people from the real purpose of Life it is very sad – and this is really a silent war against humanity!!!

Yet it makes an unmistakable 'noise', causes unmistakable physical and mental damage, and unmistakably interferes with daily social life, i.e., unmistakable to a trained observer, one who knows what to look for. The public cannot comprehend the weapon, and therefore cannot believe they are being attacked and subdued by a weapon.

The Human Project: This implicates more things since a computer is making no really noise but it is manipulating people immensely by diverting their attention to real issues of Life and enslaving them to the screen watching more or less important things that will not change the real Life for them. People have been disconnected big time by technology from themselves and from each other and it is more difficult to meet on a regular basis today – the personal letters written by the hand are converted to e-mails without the feeling and soul as a beatiful handwritten letter holds. The computers and technology were meant as a help that should free people and give them more time for leisure, etc. What happened? People and societies have been diverted and transformed for a "common purpose" that suits the agenda behind the Bilderberg Group since their ultimate control weapon is the microchipping of all people on earth – everything on earth for the ultimate control grip where all and everything are caught in a MATRIX of controlled frequencies and vibrations. By implanting a microchip in every person you can direct and control a human being like a robot. Do not fear - be aware.

But what else are we talking about here? What is it that you cannot hear?

We are very sad to say what we are going to say now since most people are really already being manipulated and deeply touched by these silens weapons for the quiet war against the human psyche.

The weapons making the "invisible" noise, damaging both the physical and the psychological are the wireless technologies of today. Please study the brain- wave model further up in this document and you will understand. The wireless society serves a completely other agenda than communication for people – that is probably the least important no matter how perverted this might sound. The "dear" mobile phones are excellent in suppressing the consciousness connexion of humanity together with the bombardement af pulsating microwaves from the mobile towers, hotspots, Wi-Fl systems in buildings, and especially the cordless DECT phones even designed for wireless IP-telecommunication, etc.

If you doubt this or do not see it, please watch the movies "Enemy of the State" (1998) and "Control Factor" (2003). Technologies in the first movie were real and already 15 years old when the movie came out – that means 25 years now, and the last movie is showing reality really as it is. But then again the majority of people just say that it is a movie and laugh at you when you express the truth to them. This often shows how easy it is to manipulate and create DIVERSION.

Can you hold it in your hands? How can you perceive somethings which is totally out of the normal 5 sense reality? We have been conditioned in a way that makes it almost impossible for people to believe or even investigate these things that are obvious and have been for decades. As the genius Nikola Tesla said, it is all about "energy, frequency and vibration if you wish to understand the secrets of the Universe"... and as the Russian Nobel Prize Winner Albert-Szent Gyorgi said: "Science is to see what everyone else has seen and to think what no one else has thought".

It is tough to understand what is really attacking and subdueing you and especially when you cannot see it and scientific institutions and authorities tell the same official story. The "game" is about keeping humanity as a herd where the few controls and dictates the many. It is all about control of ENERGY on all levels – oil, electricity, water, ground, air, food and human energy which is the very most important to control and disconnexion when you wish to suppress and hold people in a grip where they cannot or will not realize what is going on.

If people could see the pulsating microwaves and the pollution (electrosmog) from the wireless society then would immediately choose otherwise since this would at once make people believe that this cannot be "sound" – but it has to do with sound or rather noise – the silent noise you cannot hear with your outer ear but what every nerve cell and organism inside your hear all the time.

The Human Project strongly recommend that you get a microwave sound detector that translates the invisible to the visible noise thereby making you see the connexion between different kinds of equipment and thereby being more aware and wishfully becoming conscious about what this is really all about.

Get the detector with discount through The Human Project www.bevolution.org!!!

The public might instinctively feel that something is wrong, but because of the techinical nature of the silent weapon, they cannot express their feeling in a rational way, or handle the problem with intelligence. Therefore, they do not know how to cry for help, and do not know how to associate with others to defend themselves against it.

The Human Project: One of the first things which the wireless society and the mobile phones disconnect is the ability to COHERENT THINKING. It is quite practical if you wish to suppress people and keep them ignorant about the real world and what is really going on. What we are experiencing all over the planet is that people turn into zombies or consuming sheep who are more og less in resistance most of the time and spend much of their wakening hours doing things of no big importance – mostly entertainment.

Depression is rising and people seem to be very sad and apathetic without much hope and love in their eyes in general. The majority seem to be disconnected from the purpose and meaning of Life and follow the rest of the herd without asking really questions inwardly to themselves to find out from within whether they are on or off track?

People are in general not super enthusiastic and optimistic and wish to contribute and make a difference for the good of all and everyone. People have become more and more egoistic meaning that fear (dualism) is their "control factor" because when being disconnected from Spirit/Soul what is also known as suffering from "Switching of the Brain", theu loose ability to be in contact with their deeper feelings and their intuition, and with no coherent thinking and close contact between stomach, heart and brain common sense is rarity.

By studying the brain wave model further up in this document it is easy to see that we are been held (suppressed) in the beta state by the wireless technologies meaning that we keep thinking, worrying, complaining, talking, talking and say very little, and the most important thing – we act less and less, since we are disconnected from the Now and thereby from the stillness of mind, and since all things of real worth come from within, the real worth is disappearing since people are loosing inner contact with all the outer contact, and the wireless society and the mobile phones especially is actually de-linking humanity fro Source, and thereby from the inner to the outer world. People get lost without inner connexion!!!

When a silent weapon is applied gradually, the public adjusts/adapts to its presence and learns to tolerate its encroachment on their lives until the pressure (psychological via economic) becomes too great and they crack up.

The Human Project: The word "Control" spelled backwards in Danish means "enough shit", and humanity has gradually adjusted/adapted to control on all levels and this is killing the Life force and enthusiasm. But you cannot adjust to the pulsating microwaves in any way that will benefit your brain or organism that is for sure and this is exactly why we are seeing an increase in neurological diseases, stress, burn-out syndrome, headaches, children on Ritalin nerve medicine, etc. Yes, there are many reasons for many things but no product in the

history of mankind has ever invaded and penetrated like the wireless society and we are all being part of it whether we like or not – since it just pops up every where, and when people resist and complain about it the huge propaganda machine with officiel scientific reports and everything start without ever finding anything out which speaks on the behalf of humanity. It just happens to be that there exist so many results describing the reality about these issues that the whole wireless society worldwide should be abandoned straight away if people really got to know what is going on.

Therefore please watch the two interviews "Mobile Phone Radiation: Is it safe or not? That is the question" with the Swedish professor Olle Johansson, and the second interview named "Mobile Phone Radiation: Switching of the Brain" with the German doctor Doepp, since both interviews reveal things that might start some fast reflections since everything is obvious and it is impossible to watch these two interviews without something touching you and your Life. Find both interviews directly on Youtube channel - click her >> og through website here!!!

Therefore, the silent weapon is a type of biological warfare. It attacks the vitality, options, and mobility of the individuals of a society by knowing, understanding, manipulating, and attacking their sources of natural and social energy, and their physical, mental, and emotional strengths and weaknesses.

The Human Project: Excuse us, please read the last paragraf one more time. This is a clear-cut description of the agenda with the wireless society and the goal behind persuading all people to disconnect their land-line and only use mobile phones. The same marketing experts who raped humanity with smoking are now the main advisers for the mobile telecommunication industry – do you hear the alarm bells calling out loud now?

We are talking a silent war against humanity – it is the main war going on:

Vitality: People are loosing vitality, energy and health.

Options: People are being "told" what to do on all levels more or less. Mobility: Though people have their mobile they are not very mobile (flexible)

Manipulation: The wireless society manipulates energy on all levels.

Attack: The wireless society is disconnecting humanity from Spirit – who they

> really are and therefore disconnected from the natural Source of energy and when being disconnected they do not feel connected to

others too.

The list of direct damaged from the wireless society is endless. Physical: Mental:

The wireless society and mobile phones disconnect the mental

abilities, switches the brain, suppress people in thinking - out of Now

Chaotic frequencies bring chaoic emotions (thoughts) - how come Emotional:

people have become more and more vulnerable emotionally the more they use the wireless technologies? If you wish to stay in balance and keep optimum harmony between the brain hemispheres then it is impossible when being jack-hammered with pulsating microwaves 24/7 for the majority. The solar plexus is being manipulated and the limits of a person have to do with this. The wireless society manipulates energy and actually "possesses" people since the energy is an astral sort of energy too. Please be aware Now + take action!
