Dear Sir/Madam

Notice

Smart meter installation

Property Number:

Customer:

I am EMF sensitive since 2017. I have reviewed the health and rights information available on the web and am of the opinion that smart meters are a health risk, a fire hazard, a security risk and they breach my rights under common law and are a breach of my human rights.

For these reasons **I DO NOT CONSENT** to having a smart meter installed on my property or any meter that uses WiFi or radio frequencies, either now or at any point in the future.

I would also like to advise you that should any attempt be made to install a smart meter or other WiFi or radio frequency emitting device, I will consider this to be an assault on my individual body and an infringement of my human rights. The installer and other post holders within Manx Utilities, will be held liable in their **private capacity**.

I will be placing a laminated notice on my meter box so there can be absolutely no misunderstanding. **There will be no further discussion on this matter.**

I have no objection to having my meter read, of course, and will happily provide you with regular meter reading should you wish.

Yours sincerely
