

COVID VACCINES — THE RUSSIAN ROULETTE

Instead of "death" rate..
LETS LOOK AT COVID "SURVIVAL" RATE???

Here's the percentage of 'world population'
that have NOT died from COVID19

UK:	99.972%
BELGIUM:	99.944%
SPAIN:	99.956%
ITALY:	99.957%
BRAZIL:	99.935%
AFRICA:	99.997259%
AUSTRALIA:	99.99669%
USA:	99.954%
CHINA:	99.99967%
INDIA:	99.9935%

653 Deaths + 12,044 Other Injuries Reported Following COVID Vaccine, Latest CDC Data Show

The numbers reflect the latest data available as of Feb. 4 from the CDC's Vaccine Adverse Event Reporting System website. Of the 653 reported deaths, 602 were from the U.S. The average age of those who died was 77, the youngest was 23.

By Children's Health Defense Team

- If according to the WHO (November estimate of serological data) 10% of the global population has been infected by SARS-cov2, which implies that the general Infection Fatality Rate is 0.14%, thus in the range of yearly flu and if according to the best estimate of CDC, IFR is less than 0.5% for the ones aged below 70 and 5.4% for the ones above 70...
- If the majority of the affected are asymptomatic, therefore not even able to recognise that they have a disease and majority of the symptomatic have only mild symptoms not necessitating hospitalization and many of them may not really spread the disease anyway... If covid immunity may last years or even decades... If there are already safe treatments for the severe cases of covid-19 that are endorsed by thousands of doctors & scientists worldwide and have already showed verifiable positive effects.... Then...
- Why do we need to vaccinate the entire population, using an experimental technology that has never been before deemed safe enough to be used on humans, already caused numerous serious side effects, which in some cases went as far as neurological damage and death and has unknown long term effects, unknown impact on reproduction and unknown interactions with other vaccines and medication and which, anyway, may give only around 3 months of immunity?
- Why do we need vaccines that were made to deal with SARS-Cov2 infections, when we have already more than 40,000 recorded mutations and especially one that is said to give rise to a dangerous new wave? Considering that scientists doubt that these vaccines can deal with other mutation of the virus, what is the reason of using them?
- Why do we need vaccines that may not prevent the infection and transmission - as affirmed by the WHO, by the England's deputy chief medical officer, by dr. Fauci and even by Pfizer's chairman - but may even have the contrary effect, as suggested by the reality of outbreaks in care homes that occurred soon after vaccination?
- If according to both Reg. 174 for healthcare professionals and Reg. 174 for recipients, the Pfizer vaccine is contraindicated to persons with hypersensitivity to the active substance and all the other ingredients, why are not people tested for sensitivity, particularly to the active substance and PEG before having their first vaccine? (introduction to the document 'NOTICE OF CRITICAL INFORMATION & LIABILITY CONCERNING THE COVID-19 VACCINATION IN THE UK' which was sent via email on February 6, to all members of UK and Scottish Parliaments plus other authorities in the NHS, MHRA, JCVI — see <https://communityawarecotland.info/new-covid-%26other-vaccines>)

These new, never used before mRNA vaccines have not been investigated for long term safety and efficacy, for interaction with other vaccines and medications, and even their short term safety in the case of immunocompromise people or people who already had covid is unknown. The effect on female and male fertility, pregnancy and breastfeeding has not been investigated through clinical trials. Numerous doctors and scientists have spoken out, despite severe censorship, pointing to the severe dangers of these vaccines, and, based on peer reviewed literature, showed the mechanisms through which they can and will cause severe disability, neurological damage, infertility and miscarriages, autoimmune diseases, cancer and death. Numerous reports appearing on social media (and some even on mainstream media) since December on prove that all these severe adverse events have indeed been seen after vaccinations, in many cases expressed as clear manifestations of immediate post-vaccination sickness. If even younger people often report serious adverse effects after vaccination, it is obvious that this could prove lethal for the elderly who are frail, immunocompromised and exposed to viral interference due to the previous flu vaccination. The doctors and scientists who stood up against the use of these experimental genetically engineered vaccines issued the most dire warnings against their use on elderly people. More recently, after clusters of deaths occurring after vaccination worldwide we have seen official measures in several nations effectively blocking the covid-vaccination of seniors: 'Chinese Health Experts called to suspend Pfizer's mRNA Vaccine for elderly after Norwegian deaths' (Jan 15), 'Germany has stopped the approval of vaccination of the over 65 with the mRNA vaccines from Astrazeneca' (Jan 28) and in February we already had 'Spain, Germany, Italy and other countries banning the use of COVID-19 vaccines for those over 55'. Let's note also that the design of these vaccines' trials shows clearly that the period of active surveillance after the vaccination last summer is still unfolding, therefore they are still in their experimental phase; being experimental, their rollout on population goes against the main principles of the Nuremberg Code.

Henry Kissinger & Bill Gates Call For Mass Vaccination & Global Governance

TOPICS: Bill Gates Globalist Agenda Henry Kissinger Spiro Skouras Vaccines
APRIL 6, 2020

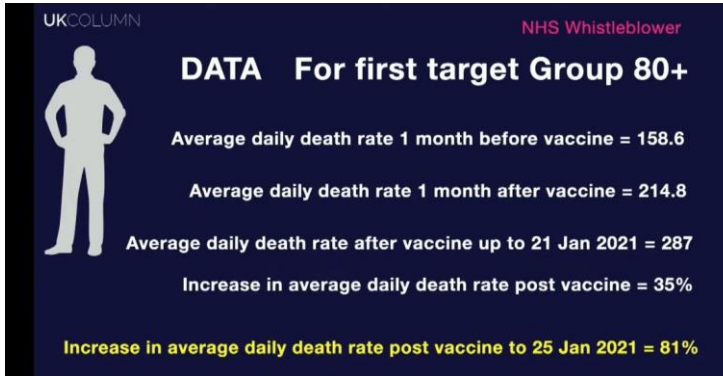

By Spiro Skouras

"Depopulation should be the highest priority of foreign policy towards the third world, because the US economy will require large and increasing amounts of minerals from abroad, especially from less developed countries".
"World population needs to be decreased by 50%".
— Henry Kissinger

There have been many clusters of deaths in UK care homes (in just 2 months since the vaccination campaign started: **'weekly Covid deaths in care homes nearly TRIPLED in a fortnight with 1,705 residents dying in England and Wales'** (Jan 22), **'the rate of covid deaths with the over 60 has quadrupled in London'** (Jan 8), **'the Covid related deaths in English care homes jumped by 46%'** (Jan 19) etc; the reality is that these sudden outbreaks coinciding with vaccination are a convenient way to dismiss the possibility of vaccine damage that has been admitted by the FDA & other agencies. Please see the very documented UK Column: **"Why Is There A Correlation Between The Vaccine Rollout And Increased COVID-19 Mortality?"** and google 'rushed vaccines'...

Please NO!!! I'm begging you please don't do it! I am a nurse and I'm seeing first hand the effects of this vaccine. Not what you are seeing on the news 🙄
Healthy people are having SEVERE REACTIONS, and DYING within days of getting this experimental poison. Please don't do it! 🙄🙄🙄
What I'm witnessing personally is completely heartbreaking. Yes I get that many are getting the with no reaction or mild reactions, but that is now! We don't know what will happen months and years from now. It's so dangerous! Please NO!

I'm a nurse and people were dropping like flies yesterday at work after receiving the 2nd dose of the vax. The complications and side effects some had are mind blowing. It's an extra hard pass for me
kara rynn @AlgorithmDancer

I am sad about my mother's death today, less than 10 days from her 2nd dose of Pfizer Covid vaccine. She was a memory patient, but had been strong and active until she fell for the first time in 87 years, after the first covid vaccine and twice after the second dose.

"The world's population is now 6.7bn, roughly double what it was when I was born. If live to be in my mid-eighties, then it will have trebled in my lifetime... I simply cannot understand why no one discusses this impending calamity, and why no world statesmen have the guts to treat the issue with the seriousness it deserves... We seem to have given up on population control." — Boris Johnson, *Daily Telegraph*, 25 October 2007

Hypocrisy: Die within 60 days of a positive test, "Definitely Covid" — Die within 10 days of having the vaccine, "Just a coincidence!"
BY THE DAILY EXPOSE ON JANUARY 25, 2021 • (3 COMMENTS)

Deaths in the 80+ population, since the vaccine roll out.

Data from: NHS England
