WHO WE ARE

Our Story

It all started in the month of May 2019 when we were deliberating over how to assist specifiers and clients with common challenges faced in the interior designing of offices such as working with a small space, incorporation of timeless design, light planning and acoustics. With this core thought in mind, we founded “Office Talks” in September 2019 to provide one-stop solutions to our client. Within a few month we expanded and added leading global brands like XAL Lighting, Arraystorm Lighting and Windor Partition Systems as our partners. Persistent to our value to provide our clients with best solutions, we launched our own brands **VARAstudio** and **Office Talks** in November 2019.

What we bring to the table

We have had an amazing journey coming to where we are today, and it has further strengthened our belief in providing innovative and cost-effective solutions in a timely manner to our clients. We have rich experience in following areas:

- Supply and Installation services
- Light Planning and Automation
- Sound Proofing
- Seating and Storage
