I am a Devon based textile artist creating contemporary botanical art, landscapes and seascapes, all inspired by the natural world around me.

Working loosely from photographs, but often directly from my imagination, each piece of my work evolves as it is created. I prefer not to use a sketchbook, instead allowing my creativity to guide me as each piece develops. Colour and texture are big influences for me and where possible I prefers to source up cycled textiles for their variety and individuality. It is important to me that these materials can be re purposed and appreciated in a totally different way for years to come.

I have also made the decision to use textiles just as I find them. So I don't dye fabrics or paint onto them at all.

As well as my original artwork my range also includes digital and giclee fine art prints, greeting cards and textile art kits, all of which can be found in my Etsy shop

https://www.etsy.com/shop/AlisonWhateley?ref=hdr_shop_menu

I also welcome commissions of all sizes, and will work with you to get the result you are looking for.

I get great pleasure from passing on my knowledge and skills to others, and run regular workshops close to my home, as well as providing talks and day workshops to groups such as the WI and embroiderers Guild.
