

Nutritional Oncology Research Institute
Westlake Village, California, USA

On-Site Residential Health Retreat

Our on-site retreat is primarily intended as an intensive holistic healing experience for cancer patients. We teach you every detail of the NORI protocol while you learn every step involved in natural nontoxic cancer management.

We also invite clients who require support with diabetes, arthritis, cardiovascular disease, digestive issues and other conditions where nutritional support is central to your healing journey.

We also offer healing retreats for those suffering from emotional trauma, PTSD, addiction, depression and OCD. We utilize plant-derived medicine together with nutrition, spiritual centered therapies, yoga and meditation.

Very comfortable accommodations with a quiet private room in a beautiful modern home situated on the lake are provided to our guests. Please view our photo gallery of our space where you will find tranquility, relaxation and calmness.

All food is provided. All nutritional supplements and nutraceuticals are provided. We will provide daily classes on nutrition, holistic healing and the biology of belief.

Meals are 100% plant-based and prepared by a highly experienced chef. Our food is mostly locally grown and organic. We will share our delicious recipes. For cancer patients, meals will be specifically tailored to be low methionine.

Outdoor activities are included in our program. Activities range from bicycle riding, hiking, walks, kayaking and sunbathing.

Learn meal preparation, food combining principals, low methionine diet guidelines, food shopping and supplementation.

We provide local transportation as needed. Free WiFi, TV and laundry.

Cost is \$1995 USD per week. 1 week minimum. Our space can accommodate a single guest or couple. For a couple, the cost is \$2,795 per week. Reservations will be refunded if cancelled within 14 days of your stay.

Please call us at 800-634-3804 if you have any questions or you would like to book a reservation.
