	0x7a34f66707b7ff0152e	29d6f9bd81d74bdd84578	Paste CO	7	

Add the Contract address

## 0x7a34F66707B7FF0152E29d6F9Bd81d74BdD84578

And make sure to switch the blockchain at the top right side to Polygon as the default is ethereum

Go Back to the main page and you should see both AURI and Polygon in the main list of your wallet

If you wish to send or receive AURI then click on AURI in your main wallet then you will see the above image, Then click on either send or receive and a popup with your wallet address will be shown
