Aqua Opalescent Poppy Show Plate

By Larry A. Yung Jr.
Glass Courtesy of Larry Yung Sr.

Sometimes when I see a piece of carnival as pretty as the Aqua Opalescent Poppy Show plate I wonder why in the world Northwood had not made more of them. I have seen an Aqua Opalescent Bowl and just a couple Aqua Opalescent Plates I had wondered about their existence until around 10 or so years ago when I saw the first plate. This particular plate I saw at an ACGA convention a few years ago. I finished my rounds looking at open rooms and I went to my Dads room and to tell him he had to go see the plate, he smiled and opened a box and showed it to me.

Dave Doty list 5 Aqua Opalescent Plates and 3 Bowls sold at auction between 2005 and to date. Poppy Show bowls and Plates come in quite a few different colors, Dave Doty list that a custard plate is known.
