Wave targets the funding on further improving the quality and breadth of our PE and sport provision. The aim is to ensure that all pupils develop healthy lifestyles and reach the performance levels that they are capable of. The funding has been used in the following ways to achieve these aims:

Providing high-quality training for staff within our school, to increase their confidence and subject knowledge in PE. Increasing the school's PE resources, so that we can deliver an exciting PE curriculum. Paying all the costs of a significant outdoor education curriculum that includes Swimming, surfing, sailing, mountain biking and climbing.

Impact

We have used the PE funding to fund a wide variety of PE opportunities both on site and at third party providers. This has given opportunities to access sports activities that many of our pupils have never experienced.

To encourage healthy lifestyles, we have continued to encourage healthy eating through promoting cooking.

Over the year, there has been the opportunity to take part in a number of school to school sports events.
