

High Risk Tactical Tracking for Armed and Violent Offenders

Hosted by: V.P.W.D.A.
Fall Training Seminar
Richmond, VA.
October 14-18, 2019

"The lessons that we learn are written on the tombstones of others" – Reid Henrichs

This training course is absolutely essential for any K-9 team that tracks criminal suspects. Training focuses on preparing canine handlers, backup officers, and incident commanders how to maximize Officer Safety and Decrease Liability for canine deployments to locate and apprehend criminal suspects. A portion of the training includes learning from the mistakes of several recent K-9 deployments which proved fatal for the K-9 handlers who unfortunately did not employ the highly effective tactics which will be taught in this course. Training in the field will focus on increasingly intense & realistic searches through urban, residential, and rural environments during day and night exercises simulating real world deployments. This course is designed for handlers of any experience level and will significantly increase the abilities of your K-9 team to safely and efficiently locate and apprehend criminal suspects.

Seminar is ***Tuition Free*** for V.P.W.D.A. MEMBERS courtesy of:

V.P.W.D.A. & Friends of Richmond K-9

TOPICS INCLUDE: Understanding Proximity Alerts, Effective Team Formations/Tactics, Moving through Corners & Chokepoints, Reading the K-9 and Terrain, Reacting to Contact, Team Communication, Tactical/Emergency Removal of K-9 Bite, Handler-Down-Rescue, Resource Management, Quick Reaction Teams, Selecting and Utilizing Proper Tools and Equipment, Managing Command Post
