

Set Up Phone for MFA

With this method, Microsoft will send you a text via SMS to verify your identity when you sign in.

Only set up Phone if you have access to an SMS-enabled phone.

1 Navigate to <https://mysignins.microsoft.com/security-info>

Sign in with **your-user-ID-here@b2bford.com**

2 Select **'+ Add sign-in method'**

3 Select **'Phone'**. Follow the prompts

 You can now sign in using phone as an MFA Method
