

ISO 41001 RISK MANAGEMENT TRAINING

MTBM Group Sdn. Bhd. (1600656-M)

Level 8, MCT Tower, Sky Park, One City, Jalan USJ 25/1, 47650 Subang Jaya, Selangor

Course Title: ISO 41001 Risk Management Training

Course Validity: 2 Days

Validity: Not Applicable

HRD Corp Scheme: Claimable

INTRODUCTION

This training provides participants with practical skills to identify, assess and manage risks within the ISO 41001 Facility Management System. It focuses on understanding risk requirements under the standard, applying risk assessment tools, evaluating impacts on facility operations and implementing effective controls. Through case studies, discussions and hands-on exercises, participants will learn how to establish a structured risk management approach that supports facility reliability and continual improvement.

OBJECTIVE(S):

- Understand ISO 41001 risk management requirements.
- Identify facility-related risks and operational impacts.
- Apply risk assessment methods for FM processes.
- Develop effective controls to mitigate risks and opportunities.
- Strengthen decision-making for facility planning and operations.
- Integrate risk management into ISO 41001 documentation.
- Monitor and review risk performance indicators.
- Support continual improvement in facility risk management.

TARGET GROUP(S):

- Facility managers and engineers
- Facility coordinators and maintenance personnel
- Risk management teams
- ISO committee members
- Safety, health and environment personnel
- Anyone involved in facility operations and risk control

ENTRY REQUIREMENT(S):

- Able to read, write and communicate verbally in Malay/English

TOPIC(S):

1. Overview of ISO 41001 Risk Management Requirements
2. Understanding Facility Risks, Hazards and Operational Impacts
3. Risk Identification Tools and Techniques
4. Risk Assessment Methods and Prioritisation
5. Developing Risk Controls and Mitigation Plans
6. Integrating Risk Management into FM Operational Processes
7. Monitoring, Reviewing and Updating Risk Records
8. Continual Improvement of Facility Risk Management

LIST OF REFERENCE BOOK(S):

- ISO 41001:2018 Standard
- Facility risk management and assessment guides
- Risk control and mitigation references

LIST OF TEACHING AID(S):

- LCD projector
- Computer
- Whiteboard with accessories
- Flip chart with accessories
- Risk assessment templates and FM tools

METHODOLOGY(S):

- Lecture
- Case studies
- Group discussions
- Risk assessment exercises
- Practical facility risk application

TRAINING SCHEDULE
