

MAGEE RANCH

Antlers Edge are top notch outfitters. They lease our ranch, Magee Ranch, and manage all aspects of the operation. From setting out wildlife feeders and providing expertly guided hunts, to taking excellent care of our family lodge- Antlers Edge are true professionals. Our family has been in the ranching business for five generations, and we know the importance of being good stewards of the land. Without proper land management, cattle are unable to perform to the best of their ability and wildlife management is no different. Proper wildlife management ensures that only choice animals have access to our limited resources, which produces the best outcome for everyone. Furthermore, leasing our land to Antlers Edge provides an added source of revenue to our operation that offsets the volatility of the cattle business. We have known Casey Carter for decades and have complete confidence in his ability to manage our hunting leases.

Joe Magee, Owner of Magee Ranch
