MULTI-STOREY

# HSN MULTI-STOREY

## Modular and versatile

### Customized

HSN MULTI-STOREY buildings can be customized for any dimension

### Bolted assembly system

HSN MULTI-STOREY buildings are designed for semi-permanent and permanent projects

### Reduced shipping volume

The components are packed and transported in knocked down configuration in standard shipping containers/trucks

### Versatility use

HSN MULTI-STOREY buildings can achieve different layout configurations in order to fulfill several destinations of use

### Reusable

The simplicity of the system allows at a later date to dismantle the structure, move and re-assemble it

### Stackable

HSN MULTI-STOREY buildings are designed up to 3 story

### Quality

Compliant with all European Standards

### Minimized number of components

HSN MULTI-STOREY buildings require very low maintenance and are designed to withstand harsh field conditions
