

Bethlehem Authority Police Report

Sep 2025

Eric Yeakel

1. Over the Labor Day Holiday weekend PA Game Commission Deputy Game Wardens arrested 7 persons riding ATVs in the Long Pond area. Some of the riders were on our property when the Game Commission found them.
2. Someone discarded a sectional couch and old gas grill along our property in the Long Pond area. Cameras in the area did not have any useful images. The PA Game Commission is putting more cameras out to hopefully aid with these and other violations.
3. The Long Pond Intake Gate had the lock cut off again. Cameras in the area gave some images, but not enough for a positive ID. After they removed the lock, the persons then left the area. Very odd to just damage the lock and leave. I spent several late nights in that area hoping to be close by when any activity would occur. Every evening was uneventful.
4. The Sky Lantern Festival had its first weekend September 6 & 7. Only the Sunday event went as scheduled as Saturday had a forecast for possible severe thunderstorms. I did not find any lanterns on Authority property the next day. The last night for the festival is Saturday September 13.
5. Director Repasch and I attended the mock FSC audit with TNC personnel. Everything went very well. TNC appeared optimistic for a good result when the FSC audit occurs.
