Notes: (1) The Federated Treasury Funds - Cash accounts at BNY Mellon secured by the full faith and credit of the U.S. Gov't. Each BA Fund has this cash account where money is deposited when received for debt service payments or interest/dividend earnings, etc. Since the balances in these funds are constantly changing, it is difficult to project earnings.

(2) Act 72 - Timed investments with local banks secured under PA Act 72, which allows funds to be invested above the \$250K FDIC Limit.

Funds are held by the FHL Bank, Pittsburgh, and are pooled as pledged securities under the Act and have a market value of not less than 101% of the invested funds.

(3) PLGIT Accounts - Liquid accounts similar to a Money Market Fund. PLGIT is a Government Pooled Investment Trust, investing in government obligations and managed by PFM, Asset Managers.

\* The BA does not control the investment of these funds, which are U.S Treasury money market accounts.
