Pro AV solutions for every application

From home theaters to digital signage, our solutions help you create professional-quality AV installations.

Extenders, Switches & Splitters

Extend audio/video signals long distances, switch between multiple sources and split signals for viewing on multiple displays.

- Select models support video resolutions up to 4K/60 Hz.
- Extenders: HDMI, DisplayPort, DVI, VGA, component, over CATx, over fiber, HDBaseT, over IP, Powerline and wireless models.
- Switches: HDMI, DisplayPort, DVI, VGA, matrix, HDBaseT and over IP models.
- Splitters: HDMI, DisplayPort, DVI, VGA, component and over IP models.

Cables & Adapters

Deliver crystal-clear audio and video signals with AV cables in a variety of technologies.

- Select products support video resolutions up to 8K/60 Hz.
- Cables are available for HDMI, DisplayPort, DVI, VGA, RCA, Toslink and coax.
- Antibacterial cable options include HDMI, DisplayPort, Ethernet and USB.
- Adapter/converters join dissimilar connectors, increasing compatibility of equipment.

Display Mounts

Mount HDTVs or flat-panel monitors on a wall to optimize viewing angles.

- Choose from wall mounts in fixed, tilt and full-motion styles.
- Mounts are available for screens up to 100 in. and 350 lb.
- Security mounts have features to deter display theft.
- VESA-compliant brackets offer no-hassle display mounting.
- Also available: outdoor wall mounts, desktop mounts/stands, ceiling mounts, floor stands and mobile carts.

Mobile Interactive Display

Promote collaboration and communication with an all-in-one presentation platform.

- 65-inch 4K touchscreen has 20 points of multi-touch to support multiple users.
- Android operating system and multiuser Windows PC work with a wide variety of applications and peripherals.
- 1080p webcam and wireless networking connect local and remote teams.
- Rechargeable battery system provides up to 90 minutes of power without plugging into a wall outlet.
- Stand has swivel casters for easy rolling from room to room.
- Also available: interactive displays without cart and battery system.

Surge Protectors

Keep equipment safe from power surges and reduce line noise (EMI/RFI).

- Available with up to 24 outlets and 4000+ joules of protection.
- Select models protect tel/DSL, Ethernet and coaxial lines.
- Premium Isobar® models feature isolated filter banks for robust line noise protection.
- Lifetime warranty and connected equipment insurance are included.

Wall-Mount Racks

Save valuable floor space and keep AV or network equipment out of the way. Cabinets lock to secure devices.

- Wall-mount racks are available from 2U to 26U with capacities up to 500 lb.
- Clear acrylic window option allows monitoring without unlocking the door.
- Hinged back option offers easy cable access.
- Most racks ship fully assembled for quick deployment.
