Declaration of Grievance

New California is a new state in development exercising its Constitutional Right to form from the State of California. The process to form New California is authorized and codified in Article IV Sections 3 & 4 of the United States Constitution.

Article IV Sections 3 of the United States Constitution states:

New States may be admitted by the Congress into this Union; but no new States shall be formed or erected within the [Jurisdiction](#) of any other State; nor any State be formed by the Junction of two or more States, or parts of States, without the Consent of the Legislatures of the States concerned as well as of the Congress.

New California Declaration of Independence of January 15, 2018 states:

“Whenever any Form of Government becomes destructive it is the Right of the People to alter or to abolish it, and to institute new Government.

When a long train of abuses and acts to seize and hold the people’s power without legal authority and pursuing invariably the same Object that clearly demonstrates a design to reduce them under absolute Despotism, it is their right, it is their duty, to throw off such Government, and to provide new Guards for their future security.

So it is the history of the past and present Governor and Government of California has a history of repeated injuries and usurpations, all having in direct object the establishment of a Tyranny over the Counties of New California and the State of California.

Whenever any Form of Government becomes destructive of these ends, it is the Right of the People to seek a constitutional remedy to the abuse of powers”.

Statement of Intent

The Citizens of New California have decided to remedy the abuse of power by the government of California by exercising their right to form a new state provided in United States Constitution Article IV Sections 3 and Section 4.

Therefore the Counties of New California bring forward 40 Grievances against the government of California to be announced in public on Tuesday at 11:00 am each week for 40 weeks.

Declaration of Grievance

United States Constitution Article IV Section 4 States:

The United States shall guarantee to every state in this union a republican form of government, and shall protect each of them against invasion; and on application of the legislature, or of the executive (when the legislature cannot be convened) against domestic violence.

Failure of the government of California to provide a ‘republican form of government’

The California government has allowed the formation of regional council entities known as soviets. These soviets consist of unelected officials who are empowered illegally to destroy the Constitutional authority of legally elected officials by disenfranchisement. Citizens who are illegally represented by soviet style entities are also disenfranchised and thus deprived of their Constitutional right to a republican form of government.

The California government and the current governor have fostered and supported an unconstitutional ‘soviet’ style regional governance system between the state of California and various foreign governments in direct violation of *Article II, Section 2, Clause 2, of the United States Constitution* which empowers the President of the United States to propose and chiefly negotiate agreements between the United States and other countries.

Failure of the government of California to protect each Citizen against '*domestic violence*'

Diverting billions of dollars away from infrastructure projects the California government and current governor caused the near total destruction of the Oroville Dam and put at risk the lives of over 1 million Californians while costing the Citizens over \$2 Billion.

The California governor who has espoused the removal of dams in California has gone to extremes by hiring former federal officials to aid in the destruction of California dams with the intent to remove Citizens from the rural areas of California through a process known as 're-wilding'. This process involves the theft of private property from hundreds of thousands of California Citizens by the government of Californians.

The current governor, the government and the California judiciary have engaged in corrupt, illegal and unconstitutional regulatory policies by colluding with non governmental organizations (NGO) to stop the distribution of water to farmers in the San Joaquin valley with the intent to destroy farms and fallow the land thus forcing the sale of rich farm land to cronies of the governor, corrupt members of NGOs and foreign governments.

The state legislature engages in passing laws signed by the current governor that eliminates parent's right to exempt their children from vaccines creating a risk-laden medical procedure that includes possible child death and disease. Parents are forced to give their children more than 40 doses of 10 federally recommended vaccines by an open-ended mandate which allows the state to add any vaccines it deems necessary at anytime.

This concludes these proceedings.
