PROUDLY CANADIAN

WOWLLY was founded in Edmonton, Alberta in the early months of 2023, born from a simple but powerful idea: sport should help people live longer, healthier, and more active lives. Our founder, a healthcare professional with over 20 years of experience and a lifelong passion for racquet sports, witnessed firsthand how staying active can transform physical and mental wellbeing. Through years of working in the healthcare industry and playing competitive sports, one truth became clear—when people find a sport they love, they move more, connect more, and thrive more.

When pickleball exploded in popularity across North America, it immediately stood out as something special. It is inclusive, social, and accessible to players of all ages and skill levels. Inspired by this unique energy, WOWLLY set out to design high-quality pickleball equipment that helps players enjoy the game more often, with greater comfort and performance. By combining medical insight, decades of sports experience, and modern engineering, we create paddles and gear that support players—from beginners discovering the sport to seasoned competitors pushing their limits.

Today, WOWLLY remains proudly Canadian at heart, rooted in the belief that movement is one of the most powerful tools for lifelong health. Our mission is simple: build exceptional equipment that brings people on to the court, keeps them active, and strengthens communities through sport. Whether you're playing your first rally or chasing your next personal best, we're here to support the joy of the game.

Pick up a paddle. Call a friend.
