

Pre-Cast Concrete

Fabricate, deliver and install

Made to order: An extensive line of pre-cast concrete products that can be made to fit your equipment, construction and facility needs.

W&W Energy Services supply an extensive line of pre-cast concrete products that support a variety of construction and operational needs. We provide pre-cast barriers, equipment, foundations, piers, T-blocks and on location concrete foundations to specification.

We custom-make concrete for all types of oil field equipment and facilities. Our concrete provides the foundation and stability required to keep your equipment and facility properly maintained, functional and safe. Pre-cast types and sizes can be found on the table enclosed (see list on back page).

Our high-quality concrete is guaranteed to meet all concrete testing requirements. It provides high impact resistance and secures oilfield equipment, facility and construction sites. This provides a solid barrier between your operations and any outside element that could pose a risk to your assets.

Our service includes fabrication and delivery of our pre-cast concrete and on-site installation of concrete foundations, where and when you need it.

ENHANCED SAFETY

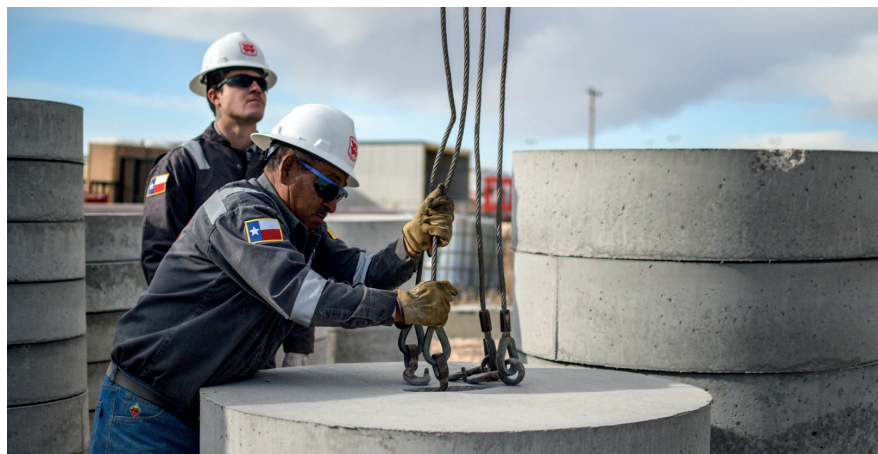

- > Barriers that keep your assets safe
- > High-impact protection barriers
- > Stabilizes and supports critical equipment
- > Reduces operational and maintenance risks

ENHANCED PERFORMANCE

- > Improves construction process
- > Improves operational maintenance
- > Keeps asset clean and performing at a high level
- > Made to fit your operational and maintenance needs

Pre-Cast Concrete

Fabricate, deliver and install

Made to order pre-cast concrete comes in a variety of sizes and types. We can work with you to identify exactly what you need for your project. We work on a variety of projects from construction, road logistics, equipment and facilities.

We have the following pre-cast types and sizes in inventory and can make custom concrete foundations.

CONCRETE USES

- > Electrical equipment foundations
- > Tank battery foundations
- > Pump and vessel foundations
- > Facility site barriers
- > Road barriers
- > Parking barriers
- > Construction barriers
- > Pipe racks
- > Full facility foundations

CUSTOM CONCRETE

- > Pre-cast foundations
- > On location foundations

CONCRETE INVENTORY:

PRE-CAST TYPE	SIZE	WEIGHT
Barrier	2'X6' to 10'	Varies
Pre-cast Equipment Foundation	108" Rounds (12" Thick)	9,000lbs
Pre-cast Equipment Foundation	96" Rounds (12" Thick)	8,500lbs
Pre-cast Equipment Foundation	84" Rounds (12" Thick)	6,000lbs
Pre-cast Equipment Foundation	72" Rounds (12" Thick)	4,200lbs
Pre-cast Equipment Foundation	60" Rounds (12" Thick)	3,000lbs
Pre-cast Equipment Foundation	48" Rounds (12" Thick)	2,000lbs
Pre-cast Equipment Foundation	36" Rounds X (8" or 12" Thick)	1,000lbs
3ft Pier	12"X12"X3'	450lbs
3-1/2ft Pier	12"X12"X3-1/2'	500lbs
4ft Pier	12"X12"X4'	575lbs
6ft Pier	12"X12"X6'	875lbs
8ft Pier	12"X12"X8'	1,333lbs
T- Block (10X30 Vessel)	9'X11'X12" - 2'X10'X18"	19,500lbs
T- Block (8X20 Vessel)	6'X8'X18" - 2'X8'X3'	19,900lbs
