

Field Maintenance

Outstanding service
on demand

Complete support: Capable people, specialized equipment and exceptional service when you need it.

W&W Energy Services has been providing a full range of field maintenance services to the Permian's key operators for more than a decade.

We maintain everything from the wellhead to the pipeline, rapidly deploying experienced teams from our facilities in Odessa, Carlsbad, Midland and Monahans. We can also mobilize full project teams to larger sites, supporting everything from small scopes all the way to a shut down or major modification.

Safety is at the forefront of everything we do, and the competence of our people is central to this. Our experienced teams keep you running safely and dependably.

Our breadth of services (see list on next page) allow you to use us as a one-stop-shop for all your field maintenance needs. We expand our services on site to take care of all our clients' needs, including hauling, lifting, setting, engineering, design, procurement, rental equipment and concrete.

Our deep knowledge of well sites and facilities and our quality driven approach ensures a successful outcome on every job.

ENHANCED SAFETY

- > Highly-skilled and trained operators
- > Best-practice approach to excavation
- > Retention of employees accumulates safety know-how
- > Vehicles and equipment designed and maintained for safety

ENHANCED PERFORMANCE

- > Strong local leadership team who have more than 50 years combined field experience
- > Responsive, scalable, flexible service
- > Full suite of services reduces vendor interfaces
- > Meets our clients' risk management, safety and insurance requirements
- > In-house engineering, design and project management when needed

Your repeat business is our goal – call us today for your field maintenance needs.

FLEXIBLE COMMERCIAL MODELS

We work on time and materials, cost plus, target price and fixed price arrangements. We will immediately start solving problems on a time and materials basis, and work to properly identify challenges, define scopes and move to 'no surprises' fixed pricing. We can be as flexible as our clients need us to be.

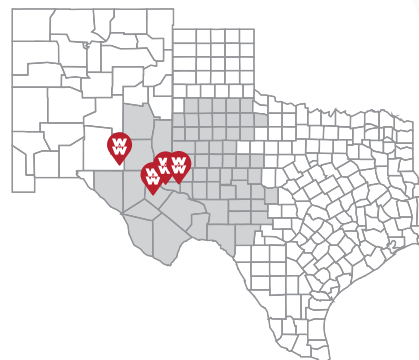

We work quickly to frame solutions and remove inefficiency from every scope. We set up high integrity reporting to keep our clients up to date on progress and provide full transparency on key issues as the job progresses.
