Genuine financial needs discount

In order to reach out to more disadvantaged students in the community, families with a current Low-Income Health Care Card may be eligible to pay a subsidised fee at the multiple sessions discount hourly rate for the whole (or remainder) of the term. This is part of our commitment towards making literacy and numeracy instruction and intervention accessible to those who need it. Parents seeking fee concessions must meet with the centre director, Sandra Sartor. Fee concessions are not ongoing and are utilised for enrolled families experiencing short-term financial hardship.
