

## Stainless Steel Handrail (Illuminated)

**FULLY MODULAR SYSTEM** - Our Stainless handrails produce a beautiful continuous flow of light to enhance your railing providing both safety and ambiance. The railings are dimmable so you can adjust the brightness to create just the right mood for your space. Installation is easy and no welding is required.

**Application:** Stairs, balustrades, and wall railings, LED strips for continuous lighting. Used in Hotels, Casinos, Universities, Museums, Movie theaters, Marinas, Sporting Venues, Commercial and Residential Buildings, and more.
