# Company Profile

## About Us

Projectworq specialises in strategic advisory and project management services, with a strong focus on sports facilities development and sustainability-driven projects.

Our expertise reflects a broad capacity to handle complex, multidisciplinary challenges in project development and execution. We respect the cultural significance of the land for traditional owners and commit to dialogue and sustainable practices in all our projects.

## Why Choose Us

20 years experience delivering sports infrastructure projects globally, including mega events like the Olympics and football World Cups, to new playing surfaces, lights and associated civil works for education and community organisations.

### Project in Focus:

#### Wynnum Bugs Rugby Field Flood Light Replacement

#### The Problem

Inadequate lighting, aging infrastructure, and environmental hazards plagued our client's facility, compromising functionality and usage.

#### Site Constraints

A complex site burdened by contaminated soil, including asbestos, and vulnerable due to its coastal and residential proximity. The need for minimal disruption was paramount for the club's busy schedule of daily training and use.

#### Our solution

Projectworq led the revitalisation; assembling a team that included engineers, designers and specialist environmental consultants. We navigated regulations, secured all approvals, and managed procurement. Overseeing construction starting March 2024, we're set to transform the usability of the fields which will underpin club growth.

### Specialist Skills

#### Strategic advice

- Needs analysis & funding prioritisation
- Project development and decision making
- Problem solving and solution design
- Asset management planning
- Sustainability-driven decision making
- Environmental, contaminated land and flood related issues and guidance

#### Sports infrastructure

- Natural turf selection and optimisation
- Synthetic turf system selection
- Hardcourt surfaces (concrete and asphalt)
- Irrigation & drainage
- Floodlight design and optioneering

#### Project preparation

- Grant funding options and applications
- Design process and readiness for construction

#### Full-suite project management services

- Project management plans
- Risk register and response plans
- Issues registers and action logs
- Decision logs
- Procurement services
- Stakeholder engagement
- Construction oversight services
