Cotton Curds

' 2 4

Aztec Collection

Cott & Curle remains steadfast in its commitment to fashioning bags and wallets using exceptionally robust, top-tier materials. These materials are meticulously selected and crafted in our own factory located in India.

At *Cott & Curle*, we prioritize equitable compensation for our artisans, ensuring they receive fair wages for their craftsmanship. Additionally, we are committed to environmentally friendly practices, processing materials used in our products with sustainability in mind whenever possible. This dual focus on fair wages and eco-conscious material processing reflects our dedication to both social responsibility and environmental sustainability.

Cott & Curle employs a sustainable production process that embraces small-scale, traditional techniques, minimizing the use of machinery. This intentional choice not only reduces energy consumption but also lessens our environmental impact.

Cott & Curle is uniquely defined by a steadfast dedication to sustainability and fairness, prioritizing these principles over profit margins. This conscious commitment underscores our profound respect for both individuals and the environment. We believe in conducting business ethically, emphasizing responsible practices that contribute to a positive impact on society and the planet. From eco-friendly sourcing to ethical labor practices, we strive to set a standard for responsible commerce, valuing people and the environment above all.

Central to our philosophy is an unwavering commitment to zero waste, showcased through our inventive utilization of recycled leather procured from the conventional leather trade. This approach leads to the creation of distinctive, handcrafted pieces ingeniously crafted from readily available off-cuts.

Aligned with the worldwide trend towards circular fashion and sustainable choices, our investigation into materials, including recycled leather, offers consumers an eco-conscious alternative. This seamlessly aligns with our mission to provide a more environmentally friendly and responsible option.

TABLE OF CONTENTS

2024
