ALL PRODUCTS IN THIS CATALOG ARE HANDCRAFTED IN THE USA

Welcome! We are a 8 year old family owned business offering luxurious, high quality Goat's Milk and Olive Oil bath and skin care products. All of our soaps are handcrafted with quality ingredients using only extra virgin olive oil and 100% pure goat's milk. We started this business because we believe that there are so many inferior bath products being used but many people just don't know what quality bath products feel like and the benefits they provide for your skin.

Most of us bathe everyday (at least I hope you do!) so it makes sense to use products that make bathing more enjoyable and promotes healthier skin at the same time. To be honest, we used commercial, mass produced bath products for years and when we finally tried high quality products, like what we offer, there was no going back. The difference it made to our skin was very noticeable and it felt great! We then felt compelled to spread the word to our family and friends. When we gave some of our goat's milk products to them, they came back to us asking where they can get more.

That is when we decided to start the Grecian Soap Company in California, USA!

The products we offer have some great benefits to promote healthy skin: Goat's milk & olive oil soaps are known for their nourishing and moisturizing qualities as well as proven health benefits due to the many nutrients contained in them. They are pH balanced to match your skin so they are easily absorbed and leave a clean, fresh and soft feeling that lasts. Alpha Hydroxy Acid contained in goats milk removes dead skin cells and has anti-inflammatory properties that helps health skin. Many soaps we offer have an embedded natural sea sponge that goes right through the soap. It's like having a built in wash cloth or scrubber to gently exfoliate and clean at the same time! Also, check out our goat's milk face, hand and body wash for people who prefer a liquid soap rather than a bar.

Our natural sea wool sponges and Caribbean Silk facial sponges are some of the finest bath and body accessories you can buy. They are naturally anti-bacterial due to enzymes in the sponge that kill mold and mildew, and they last for many months or years! Besides, they just feel great! Several sizes and types are available.

We also offer ultra-premium 81% organic goat's milk lotions that nourish, moisturize and hydrate your skin leaving it silky smooth and radiant. This lotion has aloe leaf juice as the first ingredient, instead of water like most other 'premium' lotions. Available is 13 incredible fragrances! Also, check out our rich avocado body butters, salt and sugar body scrubs and our new whipped soaps and whipped soap scrubs.
