## Eco-Friendly Dishcloth

Thank you for helping us help our planet!

Did you Know that the average family spends over \$180.00 per year on paper towels? Just one of our eco-friendly dishcloth is equal to 15 rolls of paper towels and can last 6-9 months.

Soften your eco-friendly dishcloth with water and you're ready to go.

- Wash dishes
- Wipe down appliances
- Wipe down counters
- Super absorbent
- Odor resistant
- Absorbs 15x its weight
- Clean windows & mirrors lint and streak free
- Safe for use on granite and stainless steel

To clean your dishcloth, simply wash it in the washing machine, the top shelf of your dishwasher, or put it in the microwave wet for 1-2 minutes, then lay it flat to air dry. When your dishcloth has reached its end, simply throw it in the compost.

• Packaging used is 100% biodegradable.

• Printed in Seminole, FL with water-based environmentally friendly inks.

Our eco-friendly dishcloths are made in Sweden from 70% cellulose sourced from Forest Stewardship Council® marked forests and 30% waste cotton (Cotton fibers that are too short to used in textile production).
