 HC | \$18.99  
 Ages 4-8 | **September 2024**  
**ISBN: 9781728236278**

Award-winning author Todd Sturgell returns with another irreverent, hilarious, and informative picture book that explains just how dinosaurs might have ended up in space!

When the narrator explains about the big boom that caused dinosaur extinction, Dakota the dinosaur and his ragtag group of friends don't want to hear it! Taking over the story—much to the narrator's dismay—these dizzy dinos share their spacetastic theories about moon-sauruses, Martian dinosaurs, and...zombie-sauruses?

This silly science lesson gone wrong is an amusing lesson based on real scientific theories.
