WHO WE ARE

Smoko is a lifestyle brand dedicated to creating functional cuteness. “Smoko” is an Aussie slang for a short break from the daily grind of work. Our very first product was a pair of USB heated handwarmers created for a co-worker who complained she was always cold in the office.

We believe that work and whimsy aren't mutually exclusive, and we encourage you to bring a little fun into your workspace. We've expanded our product offerings to now include items to accessorize your home and clever gift ideas to infuse a bit of **magic into the everyday.**
