Quilling

Hand-made paper greeting cards distributed by

Poppin Cards & Gifts
www.poppincards.com

Quilling is an art form that involves the use of strips of paper that are rolled, shaped, and glued together to create decorative designs. The paper is wound around a quill to create basic coil shapes. The paper is then glued at the tip and these shaped coils are arranged to form flowers, leaves, and various ornamental patterns that you find in our cards. All of our cards are handcrafted taking approximately one hour to make each one. They truly are a piece of art!

All Quilled cards are 6" x 6" unless otherwise noted, and include an envelope in a complementary color.

ROPPIN' CARDS & GIFTS

How do we make 3-D Pop Up cards? By the use of Kirigami!

Kirigami is similar to origami in that it is a form of paper art. The major difference is that in origami, you fold paper whereas in kirigami, you fold and cut paper. In the United States, the term "kirigami" was coined by Florence Temko. She used the word kirigami in the title of her book, *Kirigami, the Creative Art of Papercutting*, 1962. The book was so successful that the word kirigami was accepted as the name for the art of paper cutting. In Japan, the word kirigami had been in use for a long time because "kiru" means to cut, and "gami" means paper. So, kirigami meant to cut paper.
