SUMMARY

An Australian citizen since 2011 Estelle was born in the UK, lived in Europe, the Middle East, Southeast Asia, and New Zealand before migrating to Perth in Western Australia in 2005. Estelle has had a lifelong interest in art and exhibited as a self-taught artist on and off before enrolling in a Fine Arts degree in 2017. Setting up Artesharrock in 2019 selling ceramics, small drawings and prints while studying, Estelle graduated with a double majoring bachelor's degree, in Fine Art and Visual Culture from Curtin University with distinction, class of 2022.

Currently, while enjoying being part of the volunteer guiding team at the Art Gallery of Western Australia, Estelle is concentrating on building her art portfolio and sharing her passion for art with others.

Estelle's art practice is informed by life, people's interaction with each other and the natural world, exploring all aspects of human perception, not only the physiological and psychological, but also the cultural and socio-political.
