## Oxygen Powered Solutions

The days of harsh, carcinogenic chemical cleaners are numbered. Big chemical companies are facing the same hard truths that big tobacco has faced in the last two decades. **O-Z TECH WATER** represents a paradigm shift in clean science through massive cost savings, improved efficiencies, smaller carbon footprint, and most importantly a cleaning power that really out performs harsh chemicals. Oxygen Powered Solution is a tested, proven, effective technology that will forever change the way we think about clean!

### WHAT IS AQUEOUS OZONE?

---

Nature gives us the ingredients to make Aqueous Ozone, it's simply the air you breathe and tap water. O-Z Technology does the science! We combine the air you breathe with a water stream, then run it through a highly electrically charged environment. Our technology separates some of the oxygen molecules ( $O_2$  becomes two separate oxygen molecules). Those separate oxygen molecules ( $O_1$ ) then attach to  $O_2$  molecules making  $O_3$  (ozone) in the water. End result is Aqueous Ozone or O-Z Tech Water.

### HOW DOES IT WORK?

---

O-Z Tech Water (Aqueous Ozone) is a powerful oxidizer, even more powerful than some of the harmful cleaning chemicals. O-Z Tech Water (Aqueous Ozone) works by actively seeking out bacteria then oxidizing it. O-Z Tech Water is completely safe to use in many cleaning applications, especially a kitchen! O-Z Tech Water is FDA and USDA approved.

### WHY DO I NEED IT?

---

Most business still utilize a full line of chemicals, which are harsh and dangerous. Our technology can eliminate a large portion of those chemicals, reducing the risk to your employees and the environment. By switching to O-Z Tech Water not only are you saving money for your business, you are providing your employees and customers a safer environment.

### WHERE CAN I USE IT?

---

O-Z Tech Water has been used in many different applications across the United States. Our customers have experienced fabulous results on ice machines, steamers, floor cleaning, window cleaning, table cleaning, laundry and many more areas. Contact your O-Z Tech representative today, and let us help create a personalized plan for your business.

**ON SITE & ON DEMAND OXYGEN POWERED SOLUTIONS**  
NO CHEMICALS | EASY INSTALL | NO ADDITIVE REQUIRED | FOOD SAFE

# THE FUTURE OF SAVINGS IS HERE!

## LAUNDRY

- No chemicals
- Cut drying time by up to 60%
- Up to 50% extension on linen replacement, due to no more harsh chemicals

## ICE MACHINE

- No more ice machine filters
- No more professional cleaning
- Pathogen controlled clear quality ice

## CLEANING

- No chemicals
- Reduces up to 80% of energy use for hot water
- Save up to 50% on cost of cleaning labor
