

Member Notice – impacted by new CBU pads

To: All Members Requiring New Concrete Pad

Date: **September 12, 2024**

Subject: Mailbox Upgrade – Concrete Pad

Dear Stonelake Member,

As you know, Stonelake Association will be upgrading the mailboxes in the community and to do so, we must adhere to the current USPS requirements for high security equipment (F Series), as well as meeting the current cement pad specifications.

The community has a number of cement pads that do not meet the USPS cement pad specifications; of which one is on your shared property line. Therefore, the concrete pad will need to be removed and re-poured to the current specifications of 4' x 4' x 8" as outlined in the attachment.

During the week of **September 30, 2024 – October 4, 2024** Dean Mailing Equipment and team will be onsite to remove, dig, re-form and pour a new pad on your property line to meet USPS requirements. Dean Mailing Equipment would appreciate clearance to be box, by moving any obstacles and parked cars that may be in or around the pad.

We apologize for the inconvenience this will cause you and thank you in advance for your patience and cooperation during this period.

Should you have any additional questions, please feel free to reach out to Management.
