*How will people dress in the future? We saw one idea in the futuristic cartoon series, *The Jetsons*, which debuted in 1962 and was set mainly in sky-high Orbit City in 2062. Tap into your imagination and creativity for our Friday afternoon theme party to show what people will be wearing on the streets of the future.

**As a long-time fashion capital of the world, "An Evening in Paris" beckons us to dress in Paris-inspired style for our Saturday evening dance party.
