Caring for Your Firearms (Gun Cleaning Workshop) in Brea

*Are you new to firearms and want proper training on cleaning & caring for your firearm?
You Found the Right Place!*

Tuition: \$60 • Includes: The Firearm Cleaning Workshop, Textbook, Clean Gun & Gun Cleaning Kit!

Changing the oil in your car or taking it to the car wash is no different than cleaning your firearm. Taking a few minutes to clean your firearm increases its safety as well as it's function and accuracy. Sorry to say, most handgun courses simply teach you the basics of firearms but rarely get into cleaning them. Our professional instructors know the ins and outs of various firearms and will walk you through how to properly care for yours.

Not all firearms are easy to clean. If you have never cleaned a gun before or are new to the world of firearms. Or, if you're having trouble disassembling & reassembling your firearm while cleaning it, then you will want to come to one of our comprehensive workshops gun cleaning.

This class is designed to help new gun owners learn and understand the best possible way to clean and maintain their firearms. Learn from a knowledgeable instructor with over 42 years of stripping, cleaning, reassembling various firearms. Come to class with the firearm you want to clean. • You will receive an essential gun cleaning kit, with the option of purchasing solvent, lube & preservative at reasonable prices.

Enroll in Our Gun Cleaning Workshop Today!

Why Choose Our Gun Cleaning Workshop?

to Attend Our Gun Cleaning Workshop at **5150 HEAT Firearms Training Academy!**

Proper cleaning, inspection and maintenance is critical to keep your firearm operating when you need it and continue to function smoothly throughout the years.

What you need:

- Your semi-automatic pistol or revolver.
- Old towel or cloth you don't mind getting ruined
- Wear clothing you don't mind if it happens to get a little dirty. **DON'T** wear your best clothes! We'll be taking dirty guns apart and cleaning them!

5150 HEAT Firearms Training Academy now offers a **FREE** essential pistol cleaning kit, (*while supplies last*). If you already have your own, feel free to bring that instead.

This class is scheduled for one and a half hours but have patience and be prepared to be here maybe a little longer depending on the needs of the students.

What to Expect:

Safety is always first at **5150 HEAT Firearms Training Academy!** We'll show you how to properly field strip your semi-automatic or revolver pistol, clean, lubricate and inspect it. We can also show you how to keep your firearms in good working order.

Learn from an Expert for Just \$60 Bucks!

5150 HEAT Gun Cleaning Services Professional Gun Cleaning?

Apparently, it's a Thing, at **5150 HEAT Superior Cleaning**

A clean firearm is a reliable firearm. While anyone can run a brush through a barrel and call it clean. This does not ensure the built-up carbon, grease and grime is out of the smaller crevices which make your firearm operate.

With our **5150 HEAT** Ultrasonic Clean service, we will disassemble your firearm for thorough cleaning in our Ultrasonic cleaning system.

All components are detail cleaned, lubricated, and inspected before reassembly to ensure it is not only clean but also safe to shoot.

Whether you shoot every day, once a month or once a year, our **5150 HEAT** Ultrasonic Clean service will ensure you can depend on your firearm when you need it.

5150 HEAT Ultrasonic Clean formula cleans, lubricates, and protects your firearm.

Ultrasonic Cleaning

The benefits of having a 3-step ultrasonic cleaning is that we use our patented cleaning process to get into those hard to reach areas of your handgun. This will be apparent the first time you have your handgun cleaned with an ultrasonic cleaner. The combination of heat, heavy-duty solvent, and the vibrations of the cleaner will significantly loosen the built up of carbon, dust, grime, gun powder, copper, lead and miscellaneous gunk from your components. Allowing for your gun to operate smoothly and flawlessly.
