Mid-Week Evening Classes, (Tuesday, Wednesday & Thursday) or Weekend Day Classes (Saturday & Sunday) Enrolling Now for Responsible Orange County Gun Owners

The CCW License certification course provides individuals with a variety of privileges and benefits - it allows approved people permission to carry a handgun outside their home in public - **LEGALLY!** They are allowed to carry a loaded handgun in a vehicle, and to carry a handgun in most public areas. The license certification process provides enhanced education and understanding of self-defense laws for the firearm owner, CCW license holders find it easier to purchase firearms, and earning the CCW license privilege gives the handgun owner more self-confidence and peace of mind. Should you still apply for a CCW License despite the unconstitutional SB-2 laws? Absolutely. Police are far more likely to grant you leeway if you have an CCW than if you don't.

IMPORTANT NOTICE: DON'T CHEAT YOURSELF! Your CCW Training (Initial & Renewal) hours will follow you through your "CCW Career" and will end up as court record if you ever have to defend yourself. The exact length of our Initial CCW License course will depend on how long it takes to cover all of the topics required by the State of California. California CCW law demands a minimum of 16-hours for Initial Training & a minimum of 8-hours for Renewal of certified CCW training. **Our EXCELLENT CCW**

TRAINING runs to some extent above state minimums.

Beware Professional Opinion Ahead: I am totally baffled. Why "firearms instructors" would create half a CCW class when there is a massive amount of subject matter to teach. Literally, **lives & great bodily harm** are at stake in the scope of **Personal Self-Defense** and the **Use of Deadly Force**. With this in mind, I'm even more puzzled why students would cheat themselves by paying for a weak firearms training course that should include **E•V•E•R•Y•T•H•I•N•G** a responsible CCW license holder needs to know and understand about **Personal Self-Defense** including: **CPC 198.5 • CalCrim 505 & 506 • Castle Doctrine • Stand Your Ground** and the **Legal Use of Deadly Force & The Use of Force Continuum** but instead opt for an incomplete on-line, no instructor, course of training.

Concealed Carry License Holders need to understand: **Situational Awareness • Conflict Avoidance • Color Codes of Awareness • Conflict Avoidance • OODA Loop • Physiological Reactions Associated with Extreme Stress (Fight or Flight) • Stand Your Ground • Castle Doctrine • Mental Health & Mental Health Resources • State & Federal Self-Defense Laws • Defensive Shooting • Street Survival • Legal Aspects of Use of Force • CPC 198.5 • CalCrim 505 & 506 • Reasonable Person Test • Use-of-Force • Use of Force Continuum • Legal Use of Deadly Force • When the Right to use Deadly Force Ends • What to do in the Immediate Aftermath • What Happens When the Police Arrive • What Should You Say to the Police • What You Should Tell Your Attorney (your Attorney may not be up to Speed on Defending YOUR Use of Deadly Force case)!**
