JUDGING PROCEDURES

1. General information

An American Orchid Society (AOS) sanctioned show must comply with the current rules of the American Orchid Society **Handbook on Judging and Exhibition** and any interim rules issued by the AOS **Judging Committee**. At the show, there must be three or more judges accredited by the American Orchid Society (AOS). The decisions of these judges will be final. The American Orchid Society system of judging will be used in all events.

All judges and clerks are expected to familiarize themselves with the show rules.

All plants and flowers will be considered for recognition based on present quality, without regard to previous awards. To maintain highly competitive standards, no trophies or other recognition will be awarded if, in the judges' opinion, the flower, plant or exhibit does not warrant such recognition. Judges may subdivide or add additional classes or awards at their discretion.

2. AOS awards

This show has been approved for AOS judging. All flowers, whether entered for ribbon judging or not, will be considered for AOS awards unless otherwise marked by the exhibitor. If the flowers have previously been exhibited at an AOS-approved function, they are considered to have been screened and therefore, are not eligible for further consideration. They should be marked, "Not for AOS judging". This will not disqualify the flower from consideration in the proper ribbon or trophy class. Submission of plants or cut flowers for judging shall obligate the exhibitor to accept any award granted and to pay any fees connected with such an award except where he has clearly indicated before the judging that his entry is not to be AOS judged.

3. Ribbon judging

First, second and third place ribbons may be awarded to the best three (3) entries in each class other than a trophy class. All plants and cut flowers must be correctly entered in the appropriate class, or reclassified by a judge, to be eligible for ribbon judging. Exhibitors will enter their plants using standard Mid-America show tags or equivalent computer-generated tags. After completing the registration of the material, the copy goes on the plant while the original remains at the entry desk. Entry tags should show plant parentage, clonal name, if assigned, and previous awards, if any, to the clone. (See section: Procedure for Entry of Plans and Exhibits.) An official copy of the correct entry classes to enter your plants is available at the entry desk. Where a plant could conceivably fit into more than one class, the exhibitor shall enter it into the first applicable class listed. A mericlone is considered a vegetative division of the original plant and must be treated as such. If a plant is a mericlone, it should be so designated and the clonal name given. Species

classes will include natural hybrids. Criteria employed in ribbon class definitions refer to characteristics prevailing for mature plants grown according to normal horticultural practices.

4. Trophy eligibility

All trophies are open to all exhibitors in this show, if the exhibit is entered properly and show rules are complied with, unless otherwise specified in this schedule.

5. Plant and flower trophies

In order to be eligible for any special trophies, plants and exhibits must be entered for ribbon judging. No separate entry is required.

6. Exhibit trophies

Each exhibit may be entered in **ONE** class only. All exhibits must be entered on standard Mid-America entry tags or computerized equivalent. The copy goes on the exhibit and the original to the entry registration desk. All exhibits are eligible for the AOS Show Trophy and will be judged in accordance to the criteria in the current **AOS Handbook on Judging and Exhibition.**

SHOW CLERKS

There are two types of **registration clerks** and each has a different responsibility:

1. Classification registration clerk

Reviews entries and compares them to show schedule classifications, and checks to see that all information is provided on the entry tag. Note: The exhibitor is ultimately responsible for the correct classification of an entry.

2. Entry registration clerk

Located at the entry registration desk, receives plant/exhibit entries from exhibitors, adds the proper entry number, and adds it to the other entries in the same class. These responsibilities are often shared by two or more people.

Three types of **show (ribbon) judging clerks** assist the judges during the judging process:

1. Head Clerk

Responsible for the efficient performance of the judging process. This also includes recording the decisions of the judges, making a record of the awards given, and leading the judges to the next class to consider. When personnel are available, this person should be assisted by two additional clerks.

2. Ribbon clerk

Responsible for maintaining the ribbon supply, adding class, entry number and date to each ribbon awarded, obtaining the signatures of the judges, and placing the ribbons in accordance with the awards granted.

3. Spotter

Assists in locating exhibits and plants plus any other duties that may be assigned.

During the show judging, clerks are not to participate in the process unless asked to do so. Most often, only judges are to be involved in the deliberations concerning an entry considered for competitive awards. In all cases, clerks are to assist the judges to effect efficiency during the judging process.
