

Eve Timber

500'

Notes: The **black area** is the property's boundary. The **black A** marks the access off Broom Hill Road. It is marked with orange flagging. Once inside the property you will see orange flagging on the tree line which is marking the way back for viewing the timber. The **blue line** marks a small creek that feeds the property's lake. The **black dashed line** marks the driveway, and the path back for viewing the timber. The small **red areas** mark potential landing sites. To access the field landing to the north, an old road needs to be reopened behind the dam.
