I've discovered it!! It's not by far
a traditional wave!

Mystery Behind **New Wave**

In plain language, it is a pattern of exploring new styles for narrative and visual narration along with adding a distinctive modern style to domestic artistic works,

and we are here to create **the New Wave.**

It was like a swift and sudden wave that carried me away to another world abounding with new and bold ideas, patterns, and thoughts that had never come to the minds of many people.

Abruptly, it brought me back to our tedious, traditional world.

However, it overwhelmed me with many questions and emotions, and I remember that there was a voice whispering in my ear:

This is the new story style. Then, all of a sudden, everything has vanished!

Later on, I felt like I needed to learn about this New Wave.

Concept of the New Wave

1

Production and development of commercials

at competitive prices along with high quality.

2

Providing unique styles of production and output

that stand out from conventional styles.

3

A deep understanding of the post-production

This will save a lot of time and effort in planning, as well as implementation time (addressing repeated market mistakes).

A Wave in Creative House

After the new wave that overwhelmed the place,
the Creativity House became specialized in developing
and producing commercials, promotional films,
and documentaries for government and private companies.

1

Development
of ideas.

2

Producing them
in high quality.

New Wave

will be required in...

Marketing departments

in companies specializing in corporate content management.

Advertising agencies

specializing in creative writing.

Government agencies

that seek to produce short films or content.

Advanced content creators

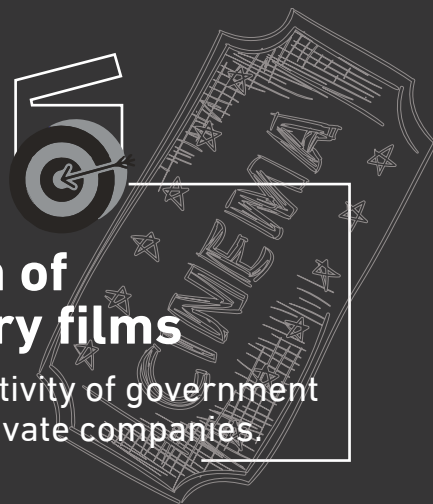

specialists in scientific and social fields

Small and medium enterprise owners

small and medium enterprises seeking productive solutions.

New Wave Services

Production of introductory films

related to the activity of government agencies and private companies.

Producing high-quality commercials

with high quality and distinctive ideas.

Producing specialized content

that serves entities that are desirous to create their own content.

Documentaries production

includes writing and preparing for the film.

How New Wave works

The stages of work that the New Wave goes through:

Note: There are more details in the implementation phase falling under these items, which will be mentioned at the time of work commencement.

New Wave Equation

= wave + idea + Client =

Awesome Product

A New Wave ... for a New Story
