

# OFFICER UNDER FIRE

TM PERPETRATOR

## AUTHENTIC RANGE TRAINING SIMULATOR

**FBI states:** "Cop killers have more experience using deadly force in "street combat" than their intended victims and offenders practiced more often than the officers they assaulted"

## WHY THE PERPETRATOR SYSTEM?

- Live fire scenario simulator
- Tactically side steps, 'slicing the pie'
- Shoots training rounds (marking/non-marking)
- Records training for post-training review
- Ultimate in stress-induced training

**Marine Cpl. Kevin Xu states,** "One of the worst battles occurred on June 13, 2010. It was my first time getting shot at and it was a complex ambush. The fire fight lasted 4 hours and was considered a victory, however four were wounded. My training with the Perpetrator was as close to live combat as I ever have experienced."

### Perpetrator 1100 Key Features:

- 1 year warranty with extended warranty options
- Ease of service and very low operational costs
- Rechargeable, quick change battery & refillable air tanks
- Smooth targeting acquisition via live video feed
- 2000 round capable Target body with movable arm
- Day/night camera with optical zoom

### Turnkey Perpetrator 1100 contents:

- Armored Mobile Unit
- Recording Control Station
- Target Body with Active Arm™
- Train the Trainer Certification

### Officer Under Fire offers grant assistance to:

- Identify all the grants available for training
- Provide points of contacts that are involved in the grant process
- Provide support in writing and strengthening your grant narrative

# PERPETRATOR™ RANGE SYSTEMS

## THE STANDARD IN AUTHENTIC FIREARMS TRAINING

### Incoming Rounds is Reality

#### Firearms training vs. a threatening, human-like target executing:

- Shots fired via training projectiles @250-380 feet/second
- Offensively 'slicing the pie' tactics via side-stepping
- Movement in all 8 directions and 360° rotation
- Arm movements for decision-based, shoot/don't shoot scenarios

### The Perpetrator Reduces Inadequate Lawsuit Liability

- *Meets U.S. District Court and Supreme Courts' adequate training standards*
  - Stress-induced firearms training
  - Moving while shooting
  - Shooting at a moving target
  - Decision based firearms training during live action drills
  - Low light firearms training
- *Training Records Reduce Liability*
  - Document training course goals and objectives
  - Perpetrator training videos can be added to training files

### How it works

1. The Perpetrator 1100 is positioned near the range bullet trap
2. The O.U.F. Certified Range Instructor is positioned at the computer control station
3. The Trainee is positioned in the range scenario with a Safety Officer
4. The Range Instructor moves the Perpetrator via remote control while targeting the trainee via 'Perpetrator' live video feed.
5. The Range Instructor conducts the scenario determining:
  - a. When to fire the Perpetrator
  - b. When to move the Perpetrator
  - c. When to move the Perpetrator hand/arm

INTERCHANGEABLE WEAPONS CAN BE USED

CONTROL STATION WITH JOYSTICK

PERPETRATOR 1100 MOVES & SHOOTS LIVE MARKING/NON-MARKING TRAINING PROJECTILES AT TRAINEES IN THE RANGE

TRAINEE FIRES LIVE AMMUNITION AT THE PERPETRATOR™ 1100

TRAINING PROJECTILES FIRED FROM ARMORED MOBILE UNIT
