ZETA PHI BETA SORORITY INC AND THE HARBOR INSTITUTE ANNOUNCE HAZING PREVENTION PARTNERSHIP

Finer Women Don't Haze Reaches New Heights

Washington, DC, September 27, 2025 — Zeta Phi Beta Sorority, Inc. and The Harbor Institute are proud to announce and celebrate our anti-hazing partnership. Together we have developed and implemented an exciting and impactful new dimension for Zeta's *Finer Women Don't Haze Initiative* (FWDH) with *A Pledge For Life™*.

A Pledge For Life is an innovative and engaging educational experience developed by The Harbor Institute which has been customized for members of Zeta Phi Beta Sorority, Inc. Each participant receives pre-reading materials, an on-site quiz, a customized resource guide and a certificate verifying their anti-hazing certification after completing their two hour in-person session. To date, the partnership has certified over 2,000 members and by the end of 2025 it is projected that this number will more than double with a projected 5,000 members achieving their certification.

The partnership has focused on presenting at all eight regions of Zeta Phi Beta Sorority, Inc. as well as in states such as Alabama, Florida, Georgia, Illinois, Michigan, New Jersey, North and South Carolina. In 2026, the partnership is exploring an international version of this anti-hazing educational experience along with additional sessions to accompany the foundational and groundbreaking *A Pledge For Life* series.
