

Childrens Party Display Price Guide

We can offer your balloons in a variety of styles and in various themes, and if not we can use our creativity to create your perfect display.

There are endless possibilities of combinations we can create to suit your space, budget and requirements. You can see previous examples of our work in our website gallery below, and our facebook [children's party album](#).

We stock various colours, and lots of character balloons so that we can cater for last minute orders, but we recommend if looking for something specific to order a week in advance, to give us time to source the stock you may need. Please note that the designs currently available may differ to previous displays you have seen.

We recommend that you read the [terms and conditions](#) and balloon care information on our website to make sure the balloons you are choosing will last for as long as you need them to, and have the advice required to keep them at their best for as long as possible. Helium latex balloons have a limited float time. Our stack designs are air filled and can there for last for over a week if taken care of.

Don't forget, we can create completely bespoke designs upon request with more or less balloons to suit your requirements.

Prices are start from prices, there will be extra charges for extras such as florals, delivery and collection please contact us with your requirements to confirm.

Our minimum order for delivery is £25

Please note that helium latex balloons have a limited float life of around 48-36 hours. Please order foil balloons if you need them to last longer
