

**Fee Schedule for Counseling Services  
Effective 01/2026**

*The following fees apply to services provided under the private-pay (self-pay) rate. If you utilize health insurance, payment will be determined by the reimbursement rate established in the contractual agreement between the practice and your insurance carrier. In the event that your insurance coverage changes, terminates, lapses, or denies payment for any reason at any time during the course of treatment, you agree to assume full financial responsibility for all services rendered, at the practice's then-current self-pay rates.*
