BROTHER RICE HIGH SCHOOL

July 24, 2024

To Whom It May Concern,

We are writing to offer our enthusiastic recommendation for the Fentanyl Fathers based on their outstanding presentation about the dangers of Fentanyl and counterfeit pills. This presentation took place at Brother Rice High School on March 24, 2024, and it left a lasting impression on both our students and staff. Additionally, their presentation to our Mothers' Club and Dads' Club were equally impactful. Their dedication to raising awareness about this critical issue is truly commendable.

The Fentanyl Fathers' compelling and heartfelt presentation effectively communicated the severe risks associated with Fentanyl and the increasing danger of counterfeit pills often purchased through social media platforms. Their personal stories and extensive knowledge of the subject matter brought a sense of urgency and reality to the topic that deeply resonated with our students.

Key highlights of their presentation include:

- Educational Content: They provided detailed information about Fentanyl, its lethal potency, and the common misconceptions surrounding its use. The presentation also covered the alarming rise of counterfeit pills laced with Fentanyl, which are tragically claiming lives at an increasing rate.
- Engaging Delivery: The Fentanyl Fathers utilized a mix of multimedia, real-life anecdotes, and interactive discussions to keep the students engaged. Their ability to connect with the audience on an emotional level ensured that the message was not only heard but felt.
- Practical Advice: They offered practical advice and resources for students to protect themselves and their peers, including recognizing the signs of overdose, understanding the importance of naloxone, and where to seek help.

The impact of their presentation was evident in our students' immediate and thoughtful responses. Many expressed a newfound awareness and concern about the issue, which has already sparked essential conversations among peers, teachers, and parents.

The Fentanyl Fathers are not just passionate advocates but also outstanding educators. Their dedication to saving lives through education and awareness is commendable. Their work is an invaluable asset to any school or community.

We wholeheartedly endorse the Fentanyl Fathers and encourage any institution to invite them for presentations. Their message is one that urgently needs to be heard by all, and their approach ensures it will not be forgotten.

Sincerely,

Principal
