## Who – Who We Are

### Fentanyl Fathers

A non-profit working to educate kids and warn communities about the dangers of fentanyl and counterfeit pills through the lens of bereaved parents. Our goal is to spare families from waking up to the same grief we share in every day.

### **Mission:**

To establish a world where no adolescent succumbs to fentanyl poisoning or overdose, by raising awareness about the dangers of fentanyl, counterfeit pills, and effective overdose response measures.

# The Numbers

As reported by the CDC:

- There were an estimated 101,078 drug overdose deaths in the US for the 12-month period ending April 2021.
- The CDC indicated that more than 110,000 Americans died from a drug overdose in the 12-months ending in January 2023.

101,078

April  
2020-2021

110,133

January  
2022-2023

## The Numbers

Overall, 75.8% involved at least one opioid, with 75,929 (68.9%) involving synthetic opioids, primarily illicitly manufactured Fentanyl or Fentanyl analogs.

75,929

68.9%  
Synthetic Opioids

# The Numbers

- **High school-aged** overdose deaths rose by 114% between 2019 and 2021
  - **Fentanyl** accounted for 77% of those deaths
- Among adolescent overdose decedents (ages 10 to 19) only 35% of them had previous opioid use history, yet 90% of deaths were opioid related
  - **1 in 4** had evidence of counterfeit pill involvement.

114%

2019-2021

90%

Opioid  
Related

2 mg = Potentially *Lethal Dose* of Fentanyl

There are **2,000 mg** in a packet of sugar by comparison

FAKE PRESCRIPTION PILLS • WIDELY AVAILABLE • INCREASINGLY LETHAL

**DEA LAB TESTING REVEALS THAT**

**7** OUT OF EVERY **10** PILLS

**WITH FENTANYL CONTAIN A POTENTIALLY**

**LETHAL DOSE**

**COUNTERFEIT PILLS OFTEN CONTAIN  
FENTANYL AND ARE MORE LETHAL  
THAN EVER BEFORE**

# Counterfeit Pills

- Mass produced by criminal drug networks
- Most contain Fentanyl, a synthetic opioid that is 50x more potent than heroin and 100x more potent than morphine
- Easy to purchase, widely available
- Sold on social media and e-commerce platforms

“This is what we want kids to know.” - Dr. Swan

# Counterfeit Pills

- These pills are being sold on social media to look like Oxycontin, Percocet, Vicodin, Xanax, and Adderall
- Assume every pill you purchase today WILL KILL YOU
- Fentanyl powder is also being added to street drug supplies like cocaine, heroin, and methamphetamine

# What Is An Opioid Overdose?

## Opioids Attaching To Receptors

The brain has many, many receptors for opioids. An overdose occurs when too much of an opioid, such as oxycodone or fentanyl, fits in too many receptors slowing and then stopping the breathing.

# Naloxone In The Brain

## Naloxone Reversing An Overdose

Naloxone has a stronger affinity to the opioid receptors than opioids, so it knocks the opioids off the receptors for a short time (30-90 minutes). This allows the person to breathe again and reverse the overdose.

# Recognizing and responding to an overdose

# SIGNS OF OPIOID OVERDOSE

1.

Pinpoint pupils

2.

Unconsciousness

3.

Shallow/slow Breathing

4.

Pale skin

5.

Blue lips

6.

Snoring/rasping breath

# Naloxone In Action

- Works on ANY opiate ANY time
- Reverses opiate effects- sedation and respiratory depression
- Causes sudden withdrawal – an unpleasant experience
- **No contraindications for use in the event of a suspected overdose**
- Routinely used by EMS (often in larger doses)

*There will be no effect on the individual if an opiate is not present*

# Steps To Administering Nasal Naloxone

## Step 1: Call 9-1-1

- Request EMS or fire department

### Law 768.13 “**Good Samaritan Act**”

(3) As used in this section:

(d) “Who participates in emergency response activities...is not liable for any civil damages” means reporting a drug overdose or other medical emergency to law enforcement, the 9-1-1 system, a poison control center, or medical provider, or assisting someone in reporting a drug overdose or other medical emergency.

# Steps To Administering Nasal Naloxone

## Step 2: *Assess Situation*

- Do not disturb the area
- Check consciousness

## Steps To Administering Nasal Naloxone

### Step 3: Give Nasal Naloxone

- Remove 1 – 4mg dose of the Nasal Narcan, or 8mg dose of Nasal Kloxxado
- Tilt individual's head back
- Dispense dose as directed into 1 nostril

## Steps To Administering Nasal Naloxone

### Step 4: Possible 2<sup>nd</sup> Dose

- Wait 2-3 minutes
- If no change in victim's condition, administer the second dose in the opposite nostril

# Steps To Administering Nasal Naloxone

## Step 5: **Withdrawal**

- Place individual on their side in the recovery position (left side)
- Possible vomiting, diarrhea, and/or sweating
- Possible agitated behavior

# The FFAM Act

<https://fentanylfathers.org/ffam-act>

We the Parents, bereaved of our child, submit A BILL TO BE ENTITLED

THE FFAM ACT, THE Fentanyl Fathers And Mothers ACT.

## A BILL TO BE ENTITLED AN ACT

Relating to Fentanyl Abuse Prevention and Drug Poisoning Awareness Education in Public Schools

BE IT ENACTED BY THE LEGISLATURE IN THE STATE OF MICHIGAN:

**SECTION A1.** This Act may be cited as the Fentanyl Fathers and Mothers Act (FFAM Act).

**SECTION A2.** Subchapter (X), Chapter (X), Education Code, is amended by adding Section (X) to read as follows:

### Sec. (X). FENTANYL POISONING AWARENESS WEEK.

(a) To educate students about the dangers posed by the drug fentanyl and the risks of fentanyl poisoning, including overdose, the governor shall designate the first week of September as Fentanyl Poisoning Education Week in public schools, aligning with the governor's proclamation of "Overdose Awareness Day" on August 31, 2023.

(b) Fentanyl Poisoning Education Week may include age-appropriate instruction, as determined by each school district, on the prevention of fentanyl abuse and addiction.

**SECTION A3.** Subchapter A, Chapter (X), Education Code, is amended by adding Section (X) to read as follows:

### Sec. (X). FENTANYL ABUSE PREVENTION AND DRUG POISONING AWARENESS EDUCATION.

(a) Each school district shall annually provide research-based instruction related to fentanyl abuse prevention and drug poisoning awareness to students in grades 6 through 12. This instruction shall be delivered through school assemblies, preferably in the auditorium, or in a space appropriate for multiple classes.

(b) The instruction required by this section may include the MEDPM formula, approved by the Drug Enforcement Administration (DEA), delivered during a 45-minute High School Assembly Presentation by a bereaved parent. The MEDPM formula comprises:

- **Movie:** An emotive film depicting real-life testimonies of loss due to fentanyl.
- **Education:** Training on naloxone administration, recognizing and responding to overdoses, and avoiding fentanyl contact.
- **Deck:** Presentation of facts from the DEA's "One Pill Can Kill" deck, highlighting the dangers of unprescribed pills.
- **Parent:** Bereaved parent sharing their authentic experience, engaging student attention effectively.

- **Measure:** Evaluation of student attitude changes using the Health Belief Model, indicating increased engagement with preventive behaviors.

(c) Additional resources for students shall be provided through a peer-to-peer volunteer chapter of S.A.F.E. (Students Advocating Fentanyl Education) at each school.

**SECTION A4.** Section (X), Education Code, is amended by adding Subsection (g-1) to read as follows:

A school district may satisfy the requirement to implement a program in substance abuse prevention and intervention by providing instruction related to youth substance use and abuse education.

**SECTION A5.** This Act applies beginning with the 2024-2025 school year.

**SECTION A6.** This Act takes effect immediately if it receives a vote of two-thirds of all the members elected to each house, as provided by Section (X), Article III, United States Constitution. If this Act does not receive the vote necessary for immediate effect, it takes effect on September 1, 2024.
