# WHO – WHO WE ARE

Fentanyl Fathers, South Florida Opioid Alliance & Miami Poison Control Center are non-profits working to educate kids and warn communities about the dangers of fentanyl and counterfeit pills for Miami-Dade Public Schools through the lens of bereaved parents. Our goal is to spare families from waking up to the same grief we share in every day.

## Mission:

To establish a world where no adolescent succumbs to fentanyl poisoning or overdose, by raising awareness about the dangers of fentanyl, counterfeit pills, and effective overdose response measures.

# THE NUMBERS

High school-aged overdose deaths rose by **114%** starting in 2020. Fentanyl accounted for **77%** of those deaths.

Among adolescent overdose decedents (ages 10 to 19) *only 35% of them had previous opioid use history*, yet **90%** of deaths were opioid related.

# OVER 100,000 DEAD NUMBERS TREND

Passing 100,000 in one year as reported by the CDC:

There were an estimated **101,078** drug overdose deaths in the US for the 12-month period ending April **2021**.

The CDC indicated that more than **110,000** Americans died from a drug overdose in the 12-months, **2022** to January **2023**.

In January **2024** **107,543** OD Deaths were recorded.

**LETHAL DOSE**

**COUNTERFEIT PILLS OFTEN CONTAIN  
FENTANYL AND ARE MORE LETHAL  
THAN EVER BEFORE**

# COUNTERFEIT PILLS

Mass produced by criminal drug networks

Most contain Fentanyl, a synthetic opioid that is 50x more potent than heroin and 100x more potent than morphine

Easy to purchase, widely available

Sold on social media and e-commerce platforms like **Snapchat**.

Source: DEA. Note - CoFounder of [FentanylFathers.org](https://www.fentanylfathers.org)  
James McCarthy of Birmingham MI lost his 19 year old son Jack via a Snapchat purchase of fake Xanax.

# Social Media Creates *Pressure*, affects Mental Health

# COUNTERFEIT PILLS

These pills are being sold on social media to look like Oxycontin, Percocet, Vicodin, Xanax, and Adderall

Assume every pill you purchase today **WILL KILL YOU**

Fentanyl powder is also being added to street drug supplies like cocaine, heroin, and methamphetamine

# Tracking Fentanyl's deadly path from China to Mexico to ODs in America

## Sales Room in China

Members of drug cartels pick up precursor chemicals from China and transport them to makeshift labs where fentanyl is produced.

A chemist for the Sinaloa Cartel prepares a mixture of synthetic heroin, used to make fentanyl pills, at a safe house in Culiacán, Sinaloa state, Mexico.

With 200,000 vehicles crossing the Mexico/US border each day, it's sometimes easy for the deadly cargo to slip through.

Fentanyl's gets its start as a powder in China and makes its way to Mexico to get further refined. It then makes its way over the border into major hub cities in the United States.

Street dealers make approximately \$2 for each \$10 bag of fentanyl that they sell to their customers.

# NALOXONE IN THE BRAIN

## Naloxone Reversing An Overdose

Naloxone has a stronger affinity to the opioid receptors than opioids, so it knocks the opioids off the receptors for a short time (30-90 minutes). This allows the person to breathe again and reverse the overdose.

# NALOXONE IN ACTION

**Works on ANY opiate ANY time**

**Reverses opiate effects- sedation and respiratory depression**

**Causes sudden withdrawal – an unpleasant experience**

**No contraindications for use in the event of a suspected overdose**

**Routinely used by EMS (often in larger doses)**

**There will be no effect on the individual if an opiate is not present**

# SIGNS OF OPIOID OVERDOSE

- 

Pinpoint pupils
- 

Unconsciousness
- 

Shallow/slow Breathing
- 

Pale skin
- 

Blue lips
- 

Snoring/rasping breath

# STEPS TO ADMINISTERING NASAL NALOXONE

## Step 1: Call 9-1-1

Request EMS or fire department

Law 768.13 “**Good Samaritan Act**”

(3) As used in this section:

(d) “Who participates in emergency response activities...is not liable for any civil damages” means reporting a drug overdose or other medical emergency to law enforcement, the 9-1-1 system, a poison control center, or medical provider, or assisting someone in reporting a drug overdose or other medical emergency.

Source: Alliance of Coalitions

# STEPS TO ADMINISTERING NASAL NALOXONE

## Step 2: **Assess Situation**

Do not disturb the area

Check consciousness

Source: Alliance of Coalitions

# STEPS TO ADMINISTERING NASAL NALOXONE

## Step 3: Give Nasal Naloxone

Remove 1 – 4mg dose of the  
Nasal Narcan, or 8mg dose of Nasal  
Kloxxado

Tilt individual's head back

Dispense dose as directed into 1 nostril

# STEPS TO ADMINISTERING NASAL NALOXONE

## Step 4: Possible 2<sup>nd</sup> Dose

Wait 3 minutes

If no change in victim's condition,  
administer the second dose in the  
opposite nostril

# STEPS TO ADMINISTERING NASAL NALOXONE

## Step 5: **Withdrawal**

Place individual on their side  
in the recovery position (left side)

Possible vomiting, diarrhea,  
and/or sweating

Possible agitated behavior

# Pill Roulette

# Health Belief Model

## Analysis constructs

- **Perceived severity** of consequences from fentanyl use
  - **Perceived susceptibility** to OD
  - **Perceived benefit** to drug abstinence
  - **Perceived barriers** to naloxone
  - **Self efficacy** to recognize an OD
  - **Self efficacy** to respond to OD
  - **Knowledge** about fentanyl
- \*\*Signs of an OD + Save-a-Life kits act as **Cue to Action**

**Survey Purpose:** Theory based programming - MEASURE to MANAGE.

Measure perceived benefit to **DRUG ABSTINENCE**, **SELF EFFICACY** to recognize and respond to an OD / Poisoning.

**FREE** PDF book: [1001 Great Comebacks to Peer Pressure](#) =>

**Conclusions:** Applying the Health Belief Model and bereaved-parent testimony, this school-based overdose prevention program demonstrated **notable attitude changes** among adolescents. Theory-guided public health interventions forecast engagement with preventive behaviors that are more likely to yield **significant behavioral shifts** in addressing drug misuse, and fentanyl-related overdoses for school-aged populations.
