

Clarkston High School
Office of the Principal

February 25, 2026

To Whom It May Concern:

It is my sincere pleasure to write this letter of recommendation on behalf of Fentanyl Fathers. In my 30 years at Clarkston High School, 23 of which spent as a high school administrator, I have had the opportunity engage in many presentations, programs, and initiatives aimed at educating and engaging our student body. I can say without hesitation that Fentanyl Fathers delivered one of the most impactful and memorable experiences our school community has had the privilege of being part of.

Coordinating and organizing an optimal time for their presentation to our students was a seamless and collaborative process. From the outset, the Mike Gillette and the team at Fentanyl Fathers was professional, accommodating, and committed to making the event as effective as possible. Their flexibility and communication made all logistical planning straightforward, which is a quality we greatly appreciate when working with outside organizations.

The program itself was equal parts compelling and informative, which is no small feat in today's day and age. Capturing and maintaining the genuine attention of more than 2,000 students is an extraordinary challenge, and Fentanyl Fathers met it with remarkable skill. The presentation achieved this through a powerful combination of heartfelt personal testimonials and highly competent speakers who delivered relevant data, educational information, and accessible resources. This balance of emotional resonance and factual substance created an experience that was both deeply moving and meaningfully educational for both students and faculty.

Drawing on my 23 years in high school administration, I can definitively state that our school community benefited significantly from their time with Fentanyl Fathers. The awareness and understanding they provided around fentanyl and its devastating consequences is the kind of knowledge that can genuinely save lives. We were fortunate to have their team with us.

I recommend Fentanyl Fathers without reservation to any school, organization, or institution seeking a professional, impactful, and life-affirming program on fentanyl education and awareness. Their work is critically important, and the way they carry it out is truly exceptional.

Sincerely,

Gary L. Kaul
Principal
Clarkston High School
