To Whom It May Concern,

On behalf of Lake Shore High School, it is our pleasure to offer our strongest recommendation for the Fentanyl Fathers presentation program. In an era when schools are continually seeking meaningful and effective ways to educate, protect, and support students, this program stands out as one of the most impactful presentations our school community has had the opportunity to experience.

From the initial planning stages through the day of the presentation, the Fentanyl Fathers team demonstrated exceptional professionalism, organization, and collaboration. Their communication was clear and responsive, and they worked closely with our staff to ensure the event was scheduled and coordinated in a way that best served our students and school community.

The presentation itself was both compelling and deeply informative. Through a powerful combination of heartfelt personal testimony, factual information, and practical guidance, the presenters captured the attention of students and staff alike. Their firsthand experiences brought authenticity and credibility to the message, helping students connect with the topic in a meaningful and lasting way.

What makes the Fentanyl Fathers program especially valuable is its ability to balance emotional impact with critical education. Students gained a clear understanding of the dangers associated with fentanyl, including how easily exposure can occur and the devastating consequences it can have on individuals, families, and communities. At the same time, the presentation encouraged thoughtful discussion, responsible decision-making, and a greater awareness of available resources and support systems.

The presenters approached this difficult topic with compassion, respect, and a genuine commitment to student well-being. Their message was age-appropriate, engaging, and delivered in a manner that resonated strongly with our audience. Feedback from both students and staff was overwhelmingly positive, with many describing the experience as eye-opening, memorable, and potentially life-saving.

We wholeheartedly recommend Fentanyl Fathers to any school, district, or organization seeking a professional, impactful, and meaningful program focused on fentanyl awareness and substance misuse prevention. Their work is vitally important, and the care, integrity, and effectiveness with which they deliver their message make a lasting difference in the lives of young people.

Sincerely,

A handwritten signature in blue ink, appearing to read "Janelle Bross". The signature is fluid and cursive, with the first name "Janelle" and last name "Bross" clearly distinguishable.
