

Technology at work for you

CONNECTING YOUR BUSINESS TO THE TECHNOLOGY RESOURCES YOU NEED

CARRIER SERVICES

In today's world we see an ever-increasing need/want for "more" bandwidth; primarily driven by Cloud Computing, everything IP, and the explosion of social media on our enterprise networks. Our extensive knowledge and relationships with multi-tier network carriers allow us to add value by helping analyze existing and future network needs, thus building a secure, robust and scalable network that allows you to run your business efficiently while still meeting budget objectives.

STRENGTH IN NUMBERS

From the largest metropolitan areas to international sites to the most rural locations, we can provide solutions for your voice and data needs. J3 has access to over 100 carriers across the globe who provide fiber, copper, wireless, IP, and satellite solutions. Each solution is customized to fit unique business requirements including bandwidth, scalability, back-up and PRICE! In addition, many of these services can be monitored 24x7x365 with no additional fees.
