**BGRO02
PACKAGED
SANDBLAST
UNIT**

About the Unit

The BGR002 Packaged Sandblast Unit is a complete portable sandblast package that includes a blast hose, nozzle, breathing air hood hose and filter, a compact and powerful ELGi 185 Dual Pressure portable air compressor, and a 3 cubic foot blast pot.

The only things not included are the sandblast media and the operator air monitoring unit.

We designed this unit to be easy to set up and operate, making it simple and effective for users.

We Offer

- Portable 185 cfm/3.0 cubic ft. units
- Skid mounted units in any size, cfm & capacity
- 300 or 375/400 cfm 6 cu. ft. units allowing for greater blasting pressure, faster work, & thicker materials
- Portable & stationary air compressor sales
